Emergence of Dreaming G. William Domhoff, 2018 This new neurocognitive theory documents the unexpected similarities of dreaming to waking thought demonstrates personal psychological meaning can be found in a majority of dreams reports has a strong developmental psychology dimension pinpoints the neural substrate for dreaming and shows it is very unlikely that dreaming has any adaptive function Wyoming: A Guide to Its History, Highways and People ,1981 The Politics of Immigration Across the United States Gary M. Reich, 2021-02-15 In recent years Republicans and Democrats have drifted toward polarized immigration policy positions forestalling congressional efforts at comprehensive reform In this book Gary M Reich helps explain why some states have enacted punitive policies toward their immigrant populations while others have stepped up efforts to consider all immigrants as de facto citizens Reich argues that state policies reflect differing immigrant communities across states In states where large scale immigration was a recent phenomenon immigrants became an electorally enticing target of restrictionist advocates within the Republican party Conversely established immigrant communities steadily strengthened their ties to civic organizations and their role in Democratic electoral and legislative politics Reich contends that these diverging demographic trends at the state level were central to the increasing partisan polarization surrounding immigration nationally He concludes that immigration federalism at present suffers from an internal contradiction that proliferates conflict across all levels of government As long as Congress is incapable of addressing the plight of unauthorized immigrants and establishing a consensus on immigration admissions state policies inevitably expand legal uncertainty and partisan wrangling The Politics of Immigration Across the United States will appeal to scholars and instructors in the fields of immigration policy social policy and state government and politics The book will also encourage

public policy practitioners to reflect critically on their work **Innovating with Integrity** Sanford Borins,1998-08-01
