"Is It Easy Being Green?" Justin Nevin, 2014-09-18 More and more universities and colleges are looking beyond grade point averages and standardized test scores to choose their incoming freshman. What criteria do these institutions of higher education use as their litmus test: the college application essay? But will your average high school essay do the job? When competing against thousands of qualified candidates, a college applicant needs more than an introduction, three paragraphs, and a conclusion in their writer's tool belt; they need the skills to stand out from the crowd.

Is It Easy Being Green: Writing the NEW College Application Essay offers every applicant the skills needed to write a powerful and successful application essay. Using real-life examples and testimonials, *Is It Easy Being Green* moves away from a strictly academic point of view and uses creative writing techniques: memoir, personal essay, genre, in particular, to teach students how to write engaging and effective application essays. Centering on a narrative and lyrical balance, *Is It Easy Being Green* is written in an approachable and easy-to-understand style.

Write Your Way In Rachel Toor, 2017-08-03 Toor's style is friendly, funny, and genuinely compelling, exhorting students to go deeper with their writing, even and especially when the stakes are high. *School Library Journal* Writing for most of us is bound up with anxiety. It's even worse when it feels like your whole future—or at least where you'll spend the next four years in college—is on the line. It's easy to understand why so many high school seniors put off working on their applications until the last minute or end up with a generic and clichéd essay. The good news: You already have the secret sauce for crafting a compelling personal essay: your own experiences and your unique voice. The best essays rarely catalog how students have succeeded or achieved. Good writing shows the reader how you've struggled and describes mistakes you've made. Excellent essays express what you're fired up about, illustrate how you think, and illuminate the ways you've grown. More than twenty million students apply to college every year; many of them look similar in terms of test scores, grades, courses taken, extracurricular activities. Admissions officers wade through piles of files. As an applicant, you need to think about what will interest an exhausted reader. What can you write that will make her argue to admit you instead of the thousands of other applicants? A good essay will be conversational and rich in vivid details, and it could only be written by one person: you. This book will help you figure out how to find and present the best in yourself. You'll acquire some useful tools for writing well and may even have fun in the process.
