Griffith, Tyler C. Ré, 2023-12-09 Dissemination is a key component of the research process While several fields have developed resources dedicated to training and supporting their scientists and practitioners as they are encouraged to disseminate within their fields and to the larger public audience there has been a lack of formal guidance for dissemination within the behavioral sciences Disseminating Behavioral Science aims to fill that gap providing guidance across modalities for topics ranging from the peer review process to conference presentation to nontraditional avenues for dissemination The contents of this edited text divided across six sections serves as a roadmap for students junior researchers and senior scholars The first section includes types of academic scholarship types of dissemination and strategies to ensure ethical dissemination The second reviews traditional publication preparation including tips for the writing process and key

components to include in each section of a scientific manuscript Section Three explores publication within a traditional peer reviewed journal Section Four outlines additional strategies to get research publicly recognized through conference presentations social media and popular media sources and white and grey literature Sections Five and Six offer a consolidated glossary of all key terms in the text and combined reference list

Proposals That Work Lawrence F. Locke, Waneen Wyrick Spirduso, Stephen J. Silverman, 2014 Covering all aspects of the proposal process from the most basic questions about form and style to the task of seeking funding *Proposals That Work* offers clear advice backed up with examples

Qualitative Research Design and Methods Kathleen deMarrais, Kathryn Roulston, Janie Copple, 2024-01-08 Written by scholars from three generations of qualitative methodologists *Qualitative Research Design and Methods* An Introduction situates qualitative research within the history of the field and integrates this history within discussions of specific research designs This novel approach allows readers to come to know the genealogy of the field and how previous generations of scholars have informed what we know today as qualitative research The text reflects these more traditional as well as emerging qualitative research approaches providing a theoretically grounded approach to designing and implementing qualitative research studies While some introductory research texts focus on the specific methods of qualitative research with little attention to the role of theory this book forefronts theory in qualitative research The authors speak to students new to qualitative research with clear discussions of theory and theoretical concepts and how those notions must be considered throughout all aspects of research design implementation and representation of findings Each chapter integrates discussion of theory In addition the book highlights the role of ethics in the same way with a chapter at the beginning as well as discussions of ethics threaded throughout each of the design chapters *Qualitative Research Design and Methods* is THE introductory textbook for students taking introductory masters and doctoral courses in qualitative research Instructors in those classes will appreciate the straightforward language and concepts provided by the authors Perfect for courses such as Introduction to Qualitative Research and Qualitative Research Design
