**Mapping Responsibility** Herbert Fingarette, 2004 Written for philosophers as well as general readers interested in social and moral issues Mapping Responsibility is a thoughtful exploration of the ambiguous terrain of moral responsibility As a philosophical idea responsibility poses vexing questions What does it mean to be a responsible person that is one who is justly held accountable and possibly punishable for an action In exploring this and other important questions author Herbert Fingarette employs an interdisciplinary range of ideas He uses the theoretical standpoints of moral philosophy moral psychology and psychoanalytic psychology and also taps into legal scholarship on criminal justice to discuss retribution punishment and the state

**Morally-Demanding Infinite Responsibility** Julio Andrade, 2021-03-16 This book presents a conceptual mapping of supererogation in the analytic moral philosophical tradition It first asks whether supererogation can be conceptualised in the absence of obligation or duty and then makes the case that it can be It does so by enlisting the resources of the continental tradition specifically using the work of Emmanuel Levinas and his notion of infinite responsibility In so doing the book contributes to the ongoing efforts to create a common ethical terminology between the analytic and continental traditions within moral philosophy Supererogatory actions are praiseworthy actions that go beyond duty and yet are not blameworthy

when not performed In responding to this paradox moral philosophy either brackets or attempts a reductionism of supererogation Supererogation is epitomised in the paradigmatic figures of the saint and hero Yet most would agree that emulating these figures is too morally demanding We rightly ask where does moral obligation end Is it even possible or desirable to demarcate such a boundary Besides the important theoretical issues these questions raise they also speak to practical ethical dilemmas in the contemporary milieu as they concern the global wealthy s responsibility to the poor and the challenges of development aid work

**Bonhoeffer and the Responsibility for a Coming Generation** Robert Vosloo, Teddy Sakupapa, Karola Radler, Ashwin Thyssen, 2024-07-25 This volume draws together a selection of high quality presentations at the 13th International Bonhoeffer Congress held in January 2020 in Stellenbosch South Africa The theme of the conference was How a coming generation is to go on living Bonhoeffer and the response to our present crisis and hope The selected essays engage thoroughly and creatively with this concern to take responsibility not only for our own personal and communal life in all of its complexity and richness but also for the ethos and society that future generations will inherit from us The pertinence of Bonhoeffer s question is addressed in these contributions anew as we experience threats on a global level to socio political economic and inter religious stability and solidarity Attention is also given to some important challenges experienced in the so called global South and the reality of climate change and ecological devastation implies that the question of how future generations are going to go on living is linked to the fact that we live on a planet that is in jeopardy Also included as an appendix is the powerful sermon preached by the South African Anglican archbishop of Cape Town Thabo Makgoba at the opening worship service of the congress

**Social Dimensions of Moral Responsibility** Katrina Hutchison, Catriona Mackenzie, Marina Oshana, 2018-03-14 To what extent are we responsible for our actions Philosophical theorizing about this question has recently taken a social turn marking a shift in focus from traditional metaphysical concerns about free will and determinism Recent theories have attended to the interpersonal dynamics at the heart of moral responsibility practices and the role of the moral environment in scaffolding agency Yet the implications of social inequality and the role of social power for our moral responsibility practices remains a surprisingly neglected topic The conception of agency involved in current approaches to moral responsibility is overly idealized assuming that our practices involve interactions between equally empowered and situated agents In twelve new essays and a substantial introduction this volume

systematically challenges this assumption exploring the impact of social factors such as power relationships and hierarchies paternalism socially constructed identities race gender and class on moral responsibility Social factors have bearing on the circumstances in which agents act as well as on the person or people in the position to hold that agent accountable for his or her action Additionally social factors bear on the parties who pass judgment on the agent Leading theorists of moral responsibility including Michael McKenna Marina Oshana and Manuel Vargas consider the implications of oppression and structural inequality for their respective theories Neil Levy urges the need to refocus our analyses of the epistemic and control conditions for moral responsibility from individual to socially extended agents Leading theorists of relational autonomy including Catriona Mackenzie Natalie Stoljar and Andrea Westlund develop new insights into the topic of moral responsibility Other contributors bring debates about moral responsibility into dialogue with recent work in feminist philosophy social epistemology and social psychology on topics such as epistemic injustice and implicit bias Collectively the essays in this volume reorient philosophical debates about moral responsibility in important new directions
