Abstract

Despite the crucial role of vocabulary in foreign language acquisition, little is known about its influence on speaking and writing development from self-regulated learning concept. Thus, by employing a path analysis, this study examines the influence of vocabulary acquisition through self-regulated learning on beginner ($N = 215$) and intermediate ($N = 195$) students' speaking and writing development at Walailak University, Thailand. The findings suggest significant paths from vocabulary acquisition to students' speaking and writing development, but noting the influence of proficiency level. 1. Introduction

Vocabulary acquisition is undeniably vital for the development of learner's ability in performing the four language skills, encompassing reading, listening, writing, and speaking (Milton, 2013) and the contribution of vocabulary knowledge to learner's language proficiency has been found significant (Karakoç & Köse, 2017). However, the result of a review of current studies on vocabulary acquisition only shows marginal vocabulary growth across vocabulary teaching and learning in various EFL situations, implying the existence of inefficient vocabulary learning (Chanturia & Webb, 2016). Thus, the present study intends to offer some insights by exploring vocabulary acquisition through self-regulated learning and the effects on learner's improvement in speaking and writing skills. The vocabulary acquisition in this study involves explicit instruction in vocabulary learning that has been found effective in

Language Development ELD instruction is strikingly different than the teaching we provide students whose first language is English. The Big Book of Tasks for English Language Development helps teachers meet that challenge head on. Bestselling author and esteemed education consultant Nancy Akhavan shows that teaching multilingual learners requires changing our instruction to focus on practices that have high impact for students as they acquire language. Yet it's not about doing more; it's about doing smarter. It's about having high expectations for all students and providing scaffolds to support students at all levels of English language proficiency as they learn and grow more confident. All the ready-to-go activities in the book center on active tasks where students do the thinking, talking, reading, and writing with appropriate support. Activate the domains of language: listening, speaking, reading, and writing, and recognize that these do not develop at the same rate. Honor the continuum of language development and build on what students can do. Provide teaching tools such as learning targets, suggestions for when to use a task, basic instructions, and teacher talk for launching a task, and Watch Fors and Work Arounds. Focus on the linguistic assets multilingual learners bring to the classroom and provide opportunities to help them collaborate with peers. With Akhavan's signature straight-forward, teacher-friendly style, this book offers an uplifting reminder that with the right teaching strategies, educators can support multilingual learners to achieve their full potential and thrive in their learning journeys.
