How to Write Special Feature Articles Willard Grosvenor Bleyer, 2015-11-09 A Master Class In Journalism From 1920 This book is the result of twelve years experience in teaching university students to write special feature articles for newspapers and popular magazines By applying the methods outlined in the following pages young men and women have been able to prepare articles that have been accepted by many newspaper and magazine editors The success that these students have achieved leads the author to believe that others who desire to write special articles may be aided by the suggestions given in this book Although innumerable books on short story writing have been published no attempt has hitherto been made to discuss in detail the writing of special feature articles In the absence of any generally accepted method of approach to the subject it has been necessary to work out a systematic classification of the various types of articles and of the different kinds of titles beginnings and similar details as well as to supply names by which to identify them Particular emphasis is placed on methods of popularizing such knowledge as is not
