reinvigorated state for the twenty first century *Motherhood and Choice* Amrita Nandy,2017-10-02 How can women live fully If autonomy is critical for humans why do women have little or no choice vis vis motherhood Do women know they have a choice if they do How free are these choices in a context where the self is socially mired and deeply enmeshed into the familial What are implications of motherhood on how human relatedness and belonging are defined These questions underlie Amrita Nandy s remarkable research on motherhood as an institution one that conflates woman with mother and personal with political As the bedrock of human survival and an unchallenged norm of normal female lives motherhood expects and even compels women to be mothers symbolic and corporeal Even though the ideology of pronatalism and motherhood reinforce reproductive technology and vice versa the care work of mothering suffers political neglect and economic devaluation However motherhood and non motherhood is not just physiological As the pivot to a web of heteronormative institutions such as marriage and the family motherhood bears an overwhelming and decisive influence on women s lives Against the weight of traditional and contemporary histories socio political discourse and policies this study explores how women as embodiments of multiple identities could live stigma free authentic lives without having to abandon reproductive self determination Published by Zubaan Pratiyogita Darpan ,2008-10 Pratiyogita Darpan monthly magazine is India s largest read General Knowledge and Current Affairs Magazine Pratiyogita Darpan English monthly magazine is known for quality content on General Knowledge and Current Affairs Topics ranging from national and international news issues personality development interviews of examination toppers articles write up on topics like career economy history public administration geography polity social environment scientific legal etc solved papers of various examinations Essay and debate contest Quiz and knowledge testing features are covered every month in this magazine **An Alternative**

Philosophy of Development Birendra Prasad Mathur,2016-11-25 While development has been the foremost agenda before successive governments in India it has been viewed narrowly from the perspective of economic development and particularly in terms of gross domestic product GDP This book questions such an approach It breaks from the conventional wisdom of GDP growth as being a definitive measure of the success of a country s policies and offers an alternative development philosophy The author contends that people s economic and social welfare life satisfaction self fulfilment and happiness should be treated as indicators of real development The book underlines that in a successful model of development the country s economic policies will have to synergize with its cultural ethos and that the objective of development should be gross national happiness and well being of the people This book will be useful to scholars and researchers of development studies economics public policy and administration governance political science and sociology as well as to policymakers

Reports of Cases Determined in the Courts of Appeal of the State of California ,1928 *The Right to Education in India* Florian Matthey-Prakash,2019-08-22 What does it mean for education to be a fundamental right and how may children benefit from it Surprisingly even when the right to education was added to the Indian Constitution as Article 21A

this question barely received any attention The book identifies justiciability or more broadly enforceability as the most important feature of Article 21A meaning that children and their parents must be provided with means to effectively claim their right from the State otherwise it would remain a right only on paper The book highlights how lack of access to the Indian judiciary means that the constitutional promise of justiciability remains unfulfilled It deals with the possible alternative means the State may provide for the poor to claim the benefits under Article 21A and identifies the grievance redress mechanism created by the Right of Children to Free and Compulsory Education Act 2009 as a potential system of enforcement Even though this system is found to be deficient the book concludes with an optimistic outlook hoping that rights advocates may in the future focus on improving such mechanisms for legal empowerment **Live Stock Report**
