concept that allows the connection of the fundamental theses stemming from critical legal studies Subaltern studies decolonization law and society global political economy critical geopolitics and theories of de coloniality This volume proposes that this concept is the encryption of power a category of analysis that reveals the weakness of political liberalism when it takes the place of the legitimate fundament of democracy as well as its consummate capacity to conceal new mechanisms of global power The theory of encryption of power understands that there is only a world where difference exists as the fundamental and sole order but also that such a possibility is heavily obstructed by the concentration of power in forms of oppression The world hangs on the thread of this entangled reality made up of difference and its denial of democracy and its simulations of truth and its codifications The decryption of power is then above all a theory of justice essential to radical democracy which comes fully equipped to prevail over the conditions that deny the possibility of an egalitarian world

Postcolonial Gateways and Walls Daria Tunca, Janet Wilson, 2016-11-07 Metaphors are ubiquitously used in the humanities to bring the tangibility of the concrete world to the elaboration of abstract thought Drawing on this cognitive function of metaphors this collection of essays focuses on the evocative figures of the gateway and the wall to reflect on the state of postcolonial studies Some chapters on such topics as maze making in Canada and the Berlin Wall in the writings of New Zealand authors foreground the modes of articulation between literal borders and emotional dis connections while others examine how artefacts ranging from personal letters to clothes may be conceptualized as metaphorical gateways and walls that lead or conversely regulate access to specific forms of cultural expression and knowledge Following this line of metaphorical thought postcolonial studies itself may be said to function as either barrier or pathway to further modes of enquiry This much is suggested by two complementary sets of contributions on the one hand those that contend that the canonical centre periphery paradigm and the related writing back model have prevented scholars from recognizing the depth and magnitude of cross cultural influences between civilizations on the other those that argue that the scope of traditional postcolonial models may be fruitfully widened to include territories such as post imperial Turkey a geographical and cultural gateway between East and West that features in several of the essays included in this collection Ultimately all of the contributions testify to the fact that postcolonial studies is a field whose borders must be constantly redrawn and whose paradigms need to be continually reshaped and rebuilt to remain relevant in the contemporary world in other words the collection s varied approaches suggest that the discipline itself is permanently under construction Readers are therefore invited to perform a critical inspection of the postcolonial construction site

Bradley,1855 The History of the War with Russia Henry Tyrell,1857 **Rosslyn** Andrew Sinclair,2012-09-28 The mysterious history of Rosslyn Chapel and the Knights Templar is revealed in this authoritative volume by a descendent of its first patrons In the 15th century William Sinclair 1st Earl of Caithness and Baron of Roslin built a Catholic chapel in the Midlothian region of Scotland Famous for its esoteric symbolism this flamboyant Gothic church was of great importance to the Knights Templar who formed a third Temple of Solomon with the patronage of the Sinclair lairds Historian Andrew Sinclair whose own family lineage traces back to William explores the rise and fall of Rosslyn over the course of centuries It is a tale of religious conflicts and ancient relics of epic battles and secret societies Along the way he dispels the many myths and misinterpretations that have grown up around Rosslyn as the fortunes of the Sinclair family declined and the Church and Castle fell into ruin **The Secret Trial of Robert E. Lee** Thomas Fleming,2018-01-30 1865 The Civil War is over and the South lies in ruins But for some people former slaveholders have not been punished enough A cabal of powerful men led by Charles A Dana the assistant secretary of war plot to break the spirit of the South once and for all by convicting General Robert E Lee of treason and hanging him like a common criminal To this end they have convened a secret military tribunal in Lee s former home in Arlington Virginia Jeremiah O Brien of the New York Tribune a long time prot g of Dana s is the only reporter allowed to attend the trial His exclusive reports on this momentous event and the book he intends to write will surely make his fortune Yet as the trial proceeds pitting the general against his accusers O Brien finds himself torn between his loyalty to Dana his love for a Confederate spy and his growing respect and compassion for Lee himself The young reporter is supposed to be only an observer but in the end it is O Brien who must evaluate the evidence and determine the true meaning of honor Written by New York Times bestselling author and historian Thomas Fleming The Secret Trial of Robert E Lee brings to life a fascinating chapter in American history that might well have happened and perhaps truly did

Transcendence Frederick Guttman, Some people can imagine a monkey someday becoming a man in nature and imagine the man who may become in nature an angel and even more than an angel Transcendence means going beyond any limits or restrictions exceed a certain level A theme of the most musing is the concept of man as a being able to overcome their own barriers and become apparent more than matter something more than death more than chemistry Is that actually possible All the walls that appear at the beginning of these approaches run into the paradigm of the death of the body the biological vehicle A lack of strong evidence or fully convincing what happens then to this point when it comes to our mind our consciousness our soul or our spirit the life of most human become to a frustrated career limited by enjoy a moment of pleasure that can give the senses even if an analytical mind would know judge that there is an invisible referee of causes and effects that go beyond the visual phenomena and that our subconscious warns us cautious about the possibility of a trial in the Hereafter What if we discover that everything we think we know about the universe is nothing but an illusion a holographic projection quantum in various dimensions created by a Mind of which we are an intrinsic part incomprehensibly

landmarks The chapter on the Parthenon actually brought me to tears Jenna Russell The Boston Globe What a happy tingle of discovery to come across a book that differs sharply from all the others in its field Hollis thinks with such originality and writes with such flair that he is a pleasure to read Stanley Abercrombie The American Scholar *The Literary Gazette* ,1837
