philosophy of information has emerged as an important area of research in philosophy. However, until now, information's philosophical history has been largely overlooked. *Information and the History of Philosophy* is the first comprehensive investigation of the history of philosophical questions around information, including work from before the Common Era to the twenty-first century. It covers scientific and technology-centred notions of information, views of human information processing, as well as socio-political topics such as the control and use of information in societies. Organised into five parts, 19 chapters by an international team of contributors cover the following topics and more: Information before 500 CE, including ancient Chinese, Greek, and Roman approaches to information; Early theories of information processing; sources of information and cognition; Information and computation in Leibniz; visualised scientific information; copyright and social reform; The nineteenth century, including biological information, knowledge economies, and information's role in empire and eugenics; Recent and contemporary philosophy of information, including racialised information; Shannon information and the very idea of an information revolution. *Information and the History of Philosophy* is a landmark publication in this emerging field. As such, it is essential reading for students and researchers in the history of philosophy, philosophy of science and technology, and library and information studies. It is also a valuable resource for those working in subjects such as the history of science, media and communication studies, and intellectual history.

Deeds Not Words Helen Pankhurst, 2018-02-06. An uplifting record of progress and strength. You'll lay the book down feeling not only informed but galvanised to take action yourself. Independent. An incredible book with the potential to change women's lives. Sandi Toksvig. Why is it taking so long? Despite huge progress since the suffragette campaigns and wave after wave of feminism, women are still fighting for equality. Why will we have to wait until 2069 for the gender pay gap to disappear in the UK? Why in 2015 did 11% of women lose their jobs due to pregnancy discrimination? Why has 1 in 3 women in the world experienced physical or sexual violence? Engaging, part feminist history, part progress scoresheet, and part family memoir. Daily Telegraph. In *Deeds Not Words*, suffragette descendant and activist Helen Pankhurst charts the changes in the lives of women over the last 100 years. She celebrates landmark successes and little-known victories, looking at politics, money, identity, violence, culture, and social norms, and turning to the voices of both pioneers and ordinary women for their perspective. An exciting and engaging account of an essential part of British history. Mary Evans Emeritus Leverhulme Professor, London School of Economics. Combining historical insight with inspiring argument, *Deeds Not Words* reveals how far women have come, how far we still have to go, and how we might get there. It is essential reading for women and men on the most important issue of our time. *Deeds Not Words* is so timely. A valuable guide and reference. Annie Lennox OBE.
