Let's know more about the Scramble for Africa!

The Scramble for Africa is a term that denotes the period between approximately 1884 and 1914, during which European colonists divided the mainly unexplored African continent into 'free-trade areas', protectorates and colonies. The colonisers' primary objective was to prevent conflict among themselves over African soil, as they had limited knowledge of local conditions at the time. The border design, which survived the surge of independence in the 1960s, had significant long-lasting economic and political consequences, as no one could have anticipated the brief colonial era.
