McQueen, 2014-12-15 In this book Paddy McQueen examines the role that recognition plays in our struggles to construct an identity and to make sense of ourselves as gendered beings It analyses how such struggles for gender recognition are shaped by social discourses and power relations and considers how feminism can best respond to these issues *The Palgrave Handbook of Gender and Citizenship* Birte Siim, Pauline Stoltz, 2024-05-31 Chapter s Chapter 12 is available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com) *Chaucer's Ethical Philosophy* Laura Ashe, 2025-01-02 Chaucer s Ethical Philosophy argues that Chaucer s fictions engage with the most urgent questions of modern political and moral philosophy Close analysis of Troilus and Criseyde the Canterbury Tales and the Book of the Duchess reveals the ways in which Chaucer anticipates modern philosophical debates using his fictions to explore the ethics of subjectivity and recognition agency and moral responsibility concerns that Chaucer experimentally formulated and discomposed across his works are amongst those that most animate and trouble contemporary ethical philosophy This book places Chaucer in close dialogue not only with medieval philosophy and theology and his great European literary sources Boccaccio Dante Guillaume de Machaut but with major figures and concepts of modern philosophical thought Hegel Levinas Wittgenstein Butler recognition subjectivity gender It illuminates his use of distinctively medieval forms of narrative to explore ideas and develop philosophies that we have been conditioned to think of as exclusively modern In this he reveals both the essential nature of the questions and the contingent socially and culturally conditioned nature of our answers and he shows us that medieval structures of thought remain central to our understandings of the world In response to the fundamental ethical question how should I treat another person Chaucer s fictional experiments are shown to be as philosophically complex and ethically powerful as anything in current thought *The Persistence of Critical Theory* Gabriel R. Ricci, 2017-07-05 The latest volume of Culture and Civilization gathers contemporary exponents of critical theory specifically those based in the Frankfurt School of social thinking Collectively this volume demonstrates the continuing intellectual viability of critical theory which challenges the limits of positivism and materialism We may question how the theoretical framework of Marxism fails to coordinate with the conditions that defined labor forces as did Max Horkheimer and Theodor Adorno or deliberate on the conditions that justify the claims we make through public discourse as did Jurgen Habermas Or like Axel Honneth we may reflect on recognition theory as a means of addressing social problems Whatever our objective the focus of critical theory continues to be the consciousness of established positive interests that without debate

may sustain injustices or conditions which the public may not have chosen to impose Throughout the hardship of punitive dismissal and exile in the 1930s and 40s and the shock of the New Left in the 1960s and 70s and finally the later linguistic and pragmatic turn the Frankfurt School has sustained the idea that people escape disaffection and alienation when their knowledge of the social and political world is dialectically mediated through creative interaction This new volume in the Culture and Civilization series continues the tradition of critical thought Understanding the Dynamics of Language and Multilingualism in Professional Contexts Philippe Lecomte, Mary Vigier, Claudine Gaibrois, Betty Beeler, 2023-01-13 This book provides readers with the latest research on the dynamics of language and language diversity in professional contexts Bringing together novel findings from a range of disciplines it challenges practitioners and management scholars to question the conventional understanding of language as words with stable meanings an assumption which treats language as a tool that can be managed by language policies that standardize language Each of the contributions is designed to recognize the strides that have been made in the past two decades in research on language and languages in organizational settings while addressing remaining blind spots and emerging issues Particular attention is given to multilingualism sociolinguistic approaches to language in the workplace migration challenges critical perspectives on the power of language use and the management of organizations as dialogical discursive spaces **The Wiley Blackwell Companion to Medical Sociology** William C. The Look of a Woman Eric Plemons,2017-07-27 Developed in the United States in the 1980s facial feminization surgery FFS is a set of bone and soft tissue reconstructive surgical procedures intended to feminize the faces of trans women While facial surgery was once considered auxiliary to genital surgery many people now find that these procedures confer distinct benefits according to the different models of sex and gender in which they intervene Surgeons advertise that FFS not only improves a trans woman s appearance it allows her to be recognized as a woman by those who see her In *The Look of a Woman* Eric Plemons foregrounds the narratives of FFS patients and their surgeons as they move from consultation and the operating room to postsurgery recovery He shows how the increasing popularity of FFS represents a shift away from genital based conceptions of trans selfhood in ways that mirror the evolving views of what is considered to be good trans medicine Outlining how conflicting models of trans therapeutics play out in practice Plemons demonstrates how FFS is changing the project of surgical sex reassignment by reconfiguring the kind of sex that surgery aims to change

Warrior Women and Trans Warriors Carolina Castellanos Gonella,2024-11-15 Latin American literature has depicted warrior woman and trans warrior characters in armed conflicts but literary critics have not paid much attention to their empowerment They also have critiqued these characters using traditional gender binary concepts or have viewed their access to power as evil or abnormal *Warrior Women and Trans Warriors Performing Masculinities in Twentieth Century Latin American Literature* introduces a new perspective by analyzing how one trans

warrior and two warrior women from three canonical novels contest traditional codes of behavior and appearance. It examines Pintada in the Mexican novel *Los de abajo* 1915, Doña Bárbara in the Venezuelan novel *Doña Bárbara* 1929, and Diadorim in the Brazilian novel *Grande sertão de veredas* 1956. *Warrior Women and Trans Warriors* focuses on how these three characters challenge conventional norms and empower themselves by giving orders, using weapons, fighting, competing with other characters, exposing traditional gender ideologies, and transgressing sartorial gender rules. Drawing on trans theory, intersectionality, gender performance theory, and masculinities studies, this book argues that performing masculinities allow these characters to occupy the place of the most desired position of their contexts. *Contemporary Gender*

Transformations in South Asia Reazul Haque, 2025-06-30. Reazul Haque presents an insightful exploration into how modern gender expressions in South Asia resist traditional archetypes and adapt to contemporary social shifts. **The Healing**

Power of Education Marcia J. Watson-Vandiver, Greg Wiggan, 2021. Situating the African American learning experience within the stream of historic enslavement and hundreds of years of institutionalized racism, this timely book introduces antiracist foundations for teaching in the 21st century. The authors take a holistic approach that uses Afrocentricity to identify and address critical omissions and distortions in school curricula. Drawing on empirical findings from a high-performing 100% African American school, they identify what teachers and students recognize as successful features of the school's approach, including a unique learning environment, support systems, spiritual affirmations, evidence of Black education, a reframing of Afrocentricity, and education that promotes positive Black identity. This much-needed book demonstrates the healing power of education, provides evidence of social, emotional, and psychological transformation within the learning experience, and frames education as a tool for liberation. **Book Features:** Offers a clear chronological analysis of Black education in the United States and across the Diaspora; Includes the perceptions and experiences of students and teachers at a successful Afrocentric school; Provides the tools needed to teach multicultural histories in an antiracist way; Examines the benefits of Afrocentric curricula and the role of corrective history in promoting positive Black identity; Explores the intersections of precolonial history, student achievement, and Afrocentric education. **Constituting Central**

American-Americans Maritza E. Cárdenas, 2018-07-09. Central Americans are the third largest and fastest growing Latino population in the United States. And yet, despite their demographic presence, there has been little scholarship focused on this group. *Constituting Central American Americans* is an exploration of the historical and disciplinary conditions that have structured U.S. Central American identity and of the ways in which this identity challenges how we frame current discussions of Latina/o American ethnic and diasporic identities. By focusing on the formation of Central American identity in the U.S., Maritza E. Cárdenas challenges us to think about Central America and its diaspora in relation to other U.S. ethno-racial identities.
