Cosmology, Physics, and Philosophy Benjamin Gal-Or, 2012-12-06 What is unorthodox in this book Much has happened in the last few years especially in terms of the somewhat surprising rate at which the theories presented herein have been gaining increasing acceptance and support even by the most skeptical professionals Nevertheless the purpose of this updated Preface is not to tell the biographical and acceptance story behind this book but to bring together some non physical and non technical conclusions for those readers who find the physico mathematical sections of this book too difficult to follow A secondary purpose is to present here some newer conclusions especially in general philosophy and in aesthetics Yet the main physico philosophical conclusions presented in this book are not to be summarized here For that purpose one must turn to the text itself The theories presented here have been developed in total isolation They were never presented in professional conferences as most current writers do Whether or not that was important remains to be seen Hence all I can state to critics and enthusiastic followers alike is the fact that I do not belong to any formal discipline pressure group or professional organization Interdisciplinary Education in the Age of Assessment David M. Moss, Terry A. Osborn, Douglas Kaufman, 2010-08-27 Interdisciplinary Education in the Age of Assessment addresses a prevalent need in educational scholarship today Many current standards enforced curricula follow strict subject specific guidelines By contrast this book examines assessment models specific to interdisciplinary education positioning itself as a seminal volume in the field and a valuable resource to educators across the disciplines looking to broaden their curriculum *Management Engineering, the Journal of Production* ,1921 **Management Engineering** Leon Pratt Alford, 1921 Includes section Book reviews
