Patterns of Gender-Related Differences in
Online Communication: An Annotated Bibliography
Bruckman, A. S. (1993). Gender swapping on the Internet.
Proceedings of INET '93. Retrieved from <http://www.cc.gatech.edu/elc/papers/bruckman/gender-swapping-bruckman.pdf>

In this brief analysis, Bruckman investigates the perceptions of males and females in electronic environments. She argues that females (or those posing as females) receive an inordinate amount of unwanted sexual attention and offers of assistance from males. She also suggests that females (and sexually unthreatening males) are welcomed more willingly than dominant males into virtual communities. She concludes that behavior in electronic forums is an exaggerated reflection of gender stereotypes in real-life communication. The article is interesting and accessible, but it is quite old, and it relies almost entirely on quotations from four anonymous forum participants.

Crowston, C., & Kammerer, E. (1998). Communicative style and gender differences in computer-mediated communications. In B. Ebo (Ed.), *Cyberghetto or cybertopia? Race, class, and gender on the Internet* (pp. 185-203). Westport, CT: Praeger.

The header consists of a shortened title in all capital letters at the left margin and the page number at the right margin; on the title page only, the shortened title is preceded by the words "Running head" and a colon.

In APA style, each entry begins at the left margin; subsequent lines indent 1/2".

The annotation begins on a new line and is indented 1/2".

Summary is followed by a short evaluation of the source that notes its age and questionable research technique.

Marginal annotations indicate **APA-style formatting** and **effective writing**.

Source: Diana Hacker (Boston: Bedford/St. Martin's, 2008).

This paper follows the style guidelines in the *Publication Manual of the American Psychological Association*, 6th ed. (2010).
