 Enterprises, LLC, *Whitaker's Cumulative Book List*, 1984 **Autopia** Peter Wollen, Joe Kerr, 2002 The reach of the car  
 today is almost universal and its effect on landscapes cityscapes cultures indeed on the very fabric of the modern world is  
 profound Cars have brought benefits to individuals in terms of mobility and expanded horizons but the cost has been very  
 high in terms of damage to the environment and the consumption of precious resources Despite the growing belief that a  
 Faustian price is now being paid for the freedom cars have bestowed on us we are none the less manufacturing them in ever  
 greater numbers Autopia is the first book to explore the culture of the motor car in the widest possible sense Featuring newly  
 commissioned essays by writers critics historians artists and film makers as well as reprinting key texts it examines the effect  
 of the car throughout the world including the USA Western and Eastern Europe Japan China Cuba India and South Africa In  
 this book the car is treated neither as a technological fetish object nor as an instrument of danger Instead it is examined as a  
 hugely important determinant of 20th century culture neither wholly good nor an unmitigated disaster and certainly  
 endlessly fascinating Contributors include Michael Bracewell Ziauddin Sardar Al Rees Martin Pawley Donald Richie and  
 Peter Hamilton Key texts by Marshall Berman Jane Jacobs Roland Barthes Marc Auge and others
