From Student to Urban Planner Tuna Taşan-Kok, Mark Oranje, 2017-12-06 For many young planners the noble intentions with going to planning school seem starkly out of place in the neoliberal worlds they have come to inhabit For some the huge gap between the power they thought they would have and what they actually do is not only worrying but also deeply discouraging But for some others practice means finding practical and creative solutions to overcome challenges and complexities How do young planners in different settings respond to seemingly similar situations like these What do they do give up adjust or fight back What role did their planning education play and could it have helped in preparing and assisting them to respond to the world they are encountering In this edited volume stories of young

planners from sixteen countries that engage these questions are presented The sixteen cases range from settings with older established planning systems e g USA the Netherlands and the UK to settings where the system is less set e g Brazil being remodeled e g South Africa and Bosnia Herzegovina and under stress e g Turkey and Poland Each chapter explores what might be done differently to prepare young planners for the complexities and challenges of their real worlds This book not only points out what is absent but also offers planning educators an alternative vision The editors and esteemed contributors provide reflections and suggestions as to how this new generation of young planners can be supported to survive in embrace and change the world they are encountering and in the spirit of planning endeavor to change it for the better *The changing spaces of television acting* Richard Hewett, 2017-08-17 This book provides a historical overview and then and now comparison of performing for British television drama By examining changing acting styles from distinct eras of television production studio realism and location realism it makes a unique contribution to both television and performance studies unpacking the various determinants that have combined to influence how performers work in the medium The book compares the original versions of *The Quatermass Experiment* BBC 1953 *Doctor Who* BBC 1963-89 and *Survivors* BBC 1975-77 with their respective modern day re makes unpacking the effects of the shift from multi camera studio to single camera location production Textual analysis is combined with extensive archival research into production process and reception alongside interviews with numerous actors and production personnel from more than sixty years of television production

Climate and the Picturesque in the American Tropics Michael Boyden, 2022 This book explains how we came to think of the climate as something abstract and remote rather than a force that actively shapes our existence It shows how the writings of American travellers in the Caribbean registered and pushed forward a new understanding of the climate in a pivotal period in modern history roughly between 1770 and 1860 *Hans Christian Andersen in American Literary Criticism of the Nineteenth Century* Herbert Rowland, 2020-11-03 In *Hans Christian Andersen in American Literary Criticism of the Nineteenth Century* Herbert Rowland argues that the literary criticism accompanying the publication of Hans Christian Andersen's works in the United States compares favorably in scope perceptiveness and chronological coverage with the few other national receptions of Andersen outside of Denmark Rowland contends that American commentators made it abundantly evident that in addition to his fairy tales Andersen wrote several novels travelogues and an autobiography which were all of more than common interest In the process Rowland shows that American commentators naturalized Andersen in the United States by confronting the sensationalism in the journalism and literature of the time with the perceived wholesomeness of Andersen's writing deploying his long fiction on both sides of the debate over the nature and relative value of the romance and the novel and drawing on three of his works to support their positions on slavery the Civil War and Reconstruction **The Greatest Lives and Letters Volume 1** Sir John Alexander Hammerton, 2015-11-05 AB LARD AND H LO SE Love Letters I H lo se to Ab lard II Ab lard to H lo se III H lo se to Ab lard IV H lo se to Abelard V Ab lard to H lo se

Arbitrary Power William Keach, 2015-07-28 This book explores previously unexamined links between the arbitrary as articulated in linguistic theories on the one hand and in political discourse about power on the other In particular Willam Keach shows how Enlightenment conceptions of the arbitrary were contested and extended in British Romantic writing In doing so he offers a new paradigm for understanding the recurrent problem of verbal representation in Romantic writing and the disputes over stylistic performance during this period With clarity and force Keach reads these phenomena in relation to a rapidly shifting literary marketplace and to the social pressures in Britain generated by the French Revolution the Napoleonic Wars and the class antagonisms that culminated in the Peterloo Massacre The question of what it means to think of language or politics as arbitrary persists through postmodern thinking and this book advances an unfinished dialogue between Romantic culture and the critical techniques we currently use to analyze it Keach's intertwined linguistic and political account of arbitrary power culminates in a detailed textual analysis of the language of revolutionary violence Including substantial sections on Blake Wollstonecraft Wordsworth Coleridge Byron P B Shelley Keats and Anna Jameson Arbitrary Power will engage not only students and scholars of eighteenth and nineteenth century literature but also those interested in critical and linguistic theory and in social and political history

Against Self-Reliance William Hunting Howell, 2015-03-03 Individualism is arguably the most vital tenet of American national identity American cultural heroes tend to be mavericks and nonconformists and independence is the fulcrum of the American origin story But in the late eighteenth and early nineteenth centuries a number of American artists writers and educational philosophers cast imitation and

emulation as central to the linked projects of imagining the self and consolidating the nation Tracing continuities between literature material culture and pedagogical theory William Hunting Howell uncovers an America that celebrated the virtues of humility contingency and connection to a complex whole over ambition and distinction Against Self Reliance revalues and rethinks what it meant to be repetitive derivative or pointedly generic in the early republic and beyond Howell draws on such varied sources as Benjamin Franklin s programs for moral reform Phillis Wheatley s devotional poetry David Rittenhouse s coins and astronomical machines Benjamin Rush s psychological and political theory Susanna Rowson s schoolbooks and the novels of Charles Brockden Brown and Herman Melville to tease out patterns of dependence in early America With its incisive critique of America s storied heroic individualism Against Self Reliance argues that the arts of dependence were and are critical to the project of American independence General Prospectus (University of the Witwatersrand).
