Oliver, 2018-10-18 What does it mean to be a responsible subject in a world of pervasive violence How should we be responsible witnesses in the face of gross injustice Indeed how should we respond to atrocities that often leave us speechless and powerless In this seminal volume Kelly Oliver articulates a response ethics as an alternative to mainstream moral frameworks such as utilitarianism and Kantianism Oliver's response ethics is grounded in an innovative understanding of subjectivity Insofar as one's subjectivity is informed by the social and our sense of self is constituted by our ability to respond to our environment reconceptualizing subjectivity transforms our ethical responsibility to others Oliver's engagement in various debates in applied ethics ranging from our ecological commitments to the death penalty from sexual assaults on campus to reproductive technology shows the relevance of response ethics in contemporary society In the age of pervasive war assaults murder and prejudice Response Ethics offers timely contributions to the field of ethics *Write Successful*

International Handbook of Human Response to Trauma Arie Y. Shalev, Rachel Yehuda, Alexander C.

McFarlane, 2013-11-11 In 1996 representatives from 27 different countries met in Jerusalem to share ideas about traumatic stress and its impact For many this represented the first dialogue that they had ever had with a mental health professional from another country Many of the attendees had themselves been exposed to either personal trauma or traumatizing stories involving their patients and represented countries that were embroiled in conflicts with each other Listening to one another became possible because of the humbling humanity of each participant and the accuracy and objectivity of the data presented Understanding human traumatization had thus become a common denominator binding together all attendees This book tries to capture the spirit of the Jerusalem World Conference on Traumatic Stress bringing forward the diversities and commonalities of its constructive discourse In trying to structure the various themes that arose it was all too obvious that paradigms of different ways of conceiving of traumatic stress should be addressed first In fact the very idea that psychological trauma can result in mental health symptoms that should be treated has not yet gained universal acceptability Even within medicine and mental health competing approaches about the impact of trauma and the origins of symptoms abound Part I discusses how the current paradigm of traumatic stress disorder developed within the historical social and process contexts It also grapples with some of the difficulties that are presented by this paradigm from anthropologic ethical and scientific perspectives
