Research Methods for Educational Leadership and Management Musundire, Austin, 2025-05-13 Various research methods including action case study and experimental research can be tailored for educational leadership and management. Different research designs, data collection techniques and data analysis methods have differing strengths, weaknesses and challenges. As a result, it is crucial to develop the skills and confidence needed to conduct high quality research. It promotes best practices in educational research by highlighting ethical considerations, addressing common challenges and providing strategies for overcoming these obstacles. Covering topics such as equity, employment practices, high performance culture and professional competencies, this book is an excellent resource for educational leaders, school managers, school administrators, policymakers, researchers, professionals, scholars, academicians and more. **Corrupted**

Jonathan D Jansen, 2023-02 Through investigatory reports and interviews, Jonathan Jansen reveals the structural conditions for chronic dysfunction in a sample of South African universities. He reveals the political economy at work and the intense competition for resources on campuses. He also provides interventions for these fragile institutions. Why do some universities seem to be in a constant state of turmoil and dysfunction? Jonathan Jansen explores the root causes of chronic instability in a sample of South African universities. Through scrutiny of investigatory reports and interviews with more than 100 university managers and government officials, Jansen finds that at the heart of the dysfunction in universities is an intense and sometimes deadly competition for resources, especially on campuses located in impoverished communities. It is not the lack of institutional resources but their concentration in a university that draws a mix of corrupt actors from local politicians and taxi operators to members of council and management into a never ending run on the material such as money for infrastructure and symbolic, namely graduation certificates for sale, assets of these institutions. Jansen argues that the problem won't be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities. Jansen makes an important intervention to understanding the root causes and offers interventions to produce stabilities such as the depoliticisation of university councils and appointing academics of integrity and capacity in the management and leadership of these fragile institutions. This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly. **Practices and Perspectives of Teaching and Teacher Education in Africa**

Border Jumping and Migration Control in Southern Africa

Francis Musoni,2020-04-07 With the end of apartheid rule in South Africa and the ongoing economic crisis in Zimbabwe the border between these Southern African countries has become one of the busiest inland ports of entry in the world As border crossers wait for clearance crime violence and illegal entries have become rampant Francis Musoni observes that border jumping has become a way of life for many of those who live on both sides of the Limpopo River and he explores the reasons for this including searches for better paying jobs and access to food and clothing at affordable prices Musoni sets these actions into a framework of illegality He considers how countries have failed to secure their borders why passports are denied to travelers and how border jumping has become a phenomenon with a long history especially in Africa Musoni emphasizes cross border travelers active participation in the making of this history and how clandestine mobility has presented opportunity and creative possibilities for those who are willing to take the risk

Lost in Mobility? Indre Genelyte, 2018-10-24 This thesis seeks to make both theoretical and empirical contributions to the understanding of intra EU mobility with a focus on labour migration from Lithuania to Sweden Inspired by a critical realist perspective the thesis aims to help to explain the dynamics and individual decision making behind mass labour emigration from the Baltic states its socioeconomic consequences and policy responses Theoretically the thesis proposes a model that synthesizes a social transformation approach with an extended version of Hirschman's analytical framework of exit voice and loyalty The three empirical articles based mainly on semi structured interviews are situated within this framework Two of the articles seek to explain the migrants decision making process of stay exit entrance in the context of the structural institutional social changes that followed 1 independence from the Soviet Union in 1990 2 EU accession in 2004 and 3 the 2008 2009 economic crisis with austerity The third article brings into the debate the perspective of the sending Baltic countries in a broader context of the East West migration debate The dissertation shows that the consequences of the neoliberal policies of the post communist and post crisis transformations together with the construction of formal migration channels after EU accession constitute various migrant categories Individual strategies of actively looking for channels to exit and enter combining them in different ways at various points of the migratory process and establishing informal social networks are re constituting who can be and who is a migrant Furthermore following the economic crisis and austerity measures the decision to emigrate extends beyond individual survival strategies instead

becoming bound to an individual's perception of the ine quality of life and pursuit of a better quality of life for oneself and one's family across time and in different places Finally as the interviewed Baltic experts agree the EU's policy of the free movement is socially and economically problematic although the official Baltic states policy responses focus primarily on talented and needed diaspora members return or engagement These policies have proved to be inadequate to address demographic and socioeconomic challenges in part brought about by emigration The structural institutional conditions states and migrants strategies engender mobility as a social norm in the sending countries and promote and constitute the perpetuation of migration of both precarious labour migrants and active talented EU mobile citizens Avhandlingen avser att bidra både teoretiskt och empiriskt till ökad kunskap om den fria rörligheten inom EU med fokus på arbetskraftmigration från Litauen till Sverige Inspirerad av kritisk realism som samhällsvetenskaplig metod syftar den till att förklara såväl dynamiken i som det individuella beslutsfattandet bakom den omfattande arbetsutvandringen från de baltiska staterna samt att diskutera dess socioekonomiska konsekvenser och politiska inverkan Teoretiskt utgör avhandlingen från en modell som syntetiserar social transformation med en utsträckt version av Hirschmans analytiska ramverk för sorti protest och lojalitet De tre empiriska artiklarna som huvudsakligen bygger på semistrukturerade djupintervjuer ligger inom detta ramverk Två av artiklarna syftar till att förklara migranternas beslutsprocess i fråga om stay exit entrance mot bakgrund av de strukturella och institutionella sociala förändringarna som följde av 1) självständighetsförklaringen från Sovjetunionen 1990 2) anslutningen till EU 2004 och 3) den ekonomiska krisen 2008 2009 med följande tstramningar Den tredje artikeln för in de baltiska ländernas eget perspektiv i den bredare stv stliga migrationsdebatten Avhandlingen visar att följdena av den postkommunistiska neoliberala politiken och omvandlingen efter den ekonomiska krisen tillsammans med uppbyggnaden av formella migrationskanaler efter anslutningen till EU bidrar till att skapa olika migrantkategorier Individuella strategier för att aktivt leta efter kanaler för exit och enter kombinera dem på olika sätt och utifrån olika stadier i migrationsprocessen samt etablera informella sociala nätverk bidrar till att rekonstituera vem som kan vara och vem som är en migrant Vidare efter den ekonomiska krisen och de införda tstramningstgrnderna handlar beslutet om att emigrera inte bara om individuella levernadsstrategier utan också om individuella uppfattningar om vad som är livskvalitet och inte på engelska ine quality of life liksom strävan efter en bättre livskvalitet för sig själv och sin familj Verkligheten som de intervjuade baltiska experterna är överens om är EU:s politik för fri rörlighet socialt och ekonomiskt problematiskt även om den officiella baltiska politiken i första hand fokuserar på begärd och nödvändiga diasporamedlemmars engagemang eller återvändande Denna politik har visat sig vara otillräcklig för att ta itu med demografiska och socioekonomiska utmaningar som delvis orsakades av utvandring De strukturella institutionella förhållandena och staternas och migranternas strategier skapar verkligheten som en social norm i länder med framträdande utvandring och bidrar till fortsatt migration både vad gäller prekär arbetskraftsmigranter och aktiva och begärd EU mobila medborgare
