University Of Limpopo Opening Date For 2015:

Limpopo's Legacy Anne Heffernan, 2019 Argues that the historical primacy of youth politics in Limpopo South Africa has influenced the production of generations of nationally prominent youth and student activists among them Julius Malema Onkgopotse Tiro Cyril Ramaphosa Frank Chikane and Peter Mokaba **The South African State Transformed?** Louis A. Picard, Thomas M. Mogale, Caitlin C. Corrigan, 2024-09-10 This book examines the nature of the 1994 political transition in South Africa and its impact on post apartheid South Africa Specifically it examines the failures of liberalism within the context of the transitional process that led to the institution if not the practice of a non racial state in 1994 The term liberal is an eclectic term defining a several of views political and economic We use the term here within context but essentially define it as a commitment to open views the willingness to consider change and to value basic human rights The nature of institutional change in South Africa as it moved towards a democratic state would influence whether South Africa would succeed as a newly industrializing pluralist democratic country or collapse into yet another African failed state As South Africa moves toward its fourth decade of majority rule the view towards the future is much less promising than it was in 1994

Annual Report ... South Africa. Department of Higher Education and Training, 2016 *Science Cultures in a Diverse World: Knowing, Sharing, Caring* Bernard Schiele, Xuan Liu, Martin W. Bauer, 2021-09-13 Science and technology culture is now more than ever at the very heart of the social project and all countries to varying degrees participate in it raising scientific literacy improving the image of the sciences involving the public in debates and encouraging the young to pursue careers in the sciences Thus the very destiny of any society is now entwined with its ability to develop a genuine science and technology culture accessible for participation not only to the few who by virtue of their training or trade work in the science and technology fields but to all thereby creating occasions for society to debate and to foster a positive dialogue about the directions of change and future choices This book organized on the theme of knowing sharing caring new insights for a diverse world which was derived from the observation that globalization rests upon diversity diversity of contexts publics research strategies and new innovating practices and aims to stimulate exchanges discussions and debates to initiate a reflection conducive to decentring and to be an opportunity for enrichment by providing the reader with means to achieve the potentialities of that diversity through a comparison of the visions that underpin the attitudes of social actors the challenges they perceive and the potential solutions they consider Thus this book aims first and foremost to raise questions in such a manner that readers so stimulated will feel compelled to contribute and will do so In this spirit however significant the results presented and shared are less important than the questions they seek to answer How are we to rethink the diffusion the propagation and the sharing of scientific thought and knowledge in an ever more complex and diverse world What to know What to share How do we do it when science is broken down across the whole spectrum of the world s diversity The book is recommended for those who are interested in science communication and science cultures in the new media era in

contemporary social dynamics and in the evolution of the role of the state and of institutions It is also an excellent reference for researchers engaging in science communication public understanding of science cultural studies science and technology museum science society relationship and other fields of humanities and social sciences

A Century of Geography at Stellenbosch University 1920-2020 Gustav Visser, Jan de Waal, 2020-09-28 A Century of Geography at Stellenbosch University 1920 2020 focuses on the establishment and development of geography as an academic discipline at Stellenbosch South Africa s founding geography department The ways in which the department currently operates are deemed fundamentally joined to its past and pave the way for the evolution of geography and its various subdisciplines going forward The investigation seeks to highlight the development of the discipline and its institutionalisation as part of the academic offerings of the university while providing details about the teaching and research conducted as well as of the people who contributed to these endeavours It also furnishes the academic geography community at Stellenbosch and geography more broadly with some insights into its past development and more recent changes along with a complete bibliography of conducted research

The Politics of Custom John L. Comaroff, Jean Comaroff, 2018-03-08 How are we to explain the resurgence of customary chiefs in contemporary Africa Rather than disappearing with the tide of modernity as many expected indigenous sovereigns are instead a rising force often wielding substantial power and legitimacy despite major changes in the workings of the global political economy in the post Cold War era changes in which they are themselves deeply implicated This pathbreaking volume edited by anthropologists John L Comaroff and Jean Comaroff explores the reasons behind the increasingly assertive politics of custom in many corners of Africa Chiefs come in countless guises from university professors through cosmopolitan businessmen to subsistence farmers but whatever else they do they are a critical key to understanding the tenacious hold that traditional authority enjoys in the late modern world Together the contributors explore this counterintuitive chapter in Africa s history and in so doing place it within the broader world making processes of the twenty first century

Southern Africa's Blue Economy Donald L. Sparks, 2023-05-18 Southern Africa s maritime interests are considerable its oceans and ports are essential to the wealth of the region are crucial for trade and are an important source of employment food and energy However regional governments do not place sufficient attention on the Blue Economy and its potential to stimulate economic growth Of the 17 UN Sustainable Development Goals goal Number 14 Life Below Water is the least funded Less than 1% of Official Development Assistance goes toward this goal and even private investment and funding from philanthropic organizations is grossly inadequate to meet Africa s blue economy needs It is vital for the international community to face up to the challenges of Africa s Blue Economy and start working on solutions and for southern Africa s Blue Economy policies and goals to be expanded Just as sustainable development green initiatives show promise so too could Blue Economy projects and activities Southern Africa s rich coastal and marine resources need to be managed on both a national and regional level if they are to be used in a long term sustainable way This book provides for

the first time a concise study of the constraints and opportunities that the Blue Economy offers for southern Africa and the role that the Southern African Development Community SADC could play in fostering a sustainable use of its ocean and coastal resources University on the Border Lis Lange,Vasu Reddy,Siseko H. Kumalo,2021-08-27 The volume explores and thinks through the process of decolonising the South African higher education system by examining MustFall The text offers theoretical insights from a historical contemporary and multidisciplinary lens while examining the embedded meanings of the university as an institution idea and set of practices to show the shifts and changes that were inaugurated by MustFall along with the historicities that define the university both locally and globally The retro and prospective insights presented in the book surface the crisis of authority that places the university in a state of precarity which is framed in the book as the border The volume proposes the concept of the border recognising its conceptual and analytical dynamism as a generative space that can facilitate new imaginaries and articulations of this social institution the university **#FeesMustFall and Youth Mobilisation in South Africa** Musawenkosi Ndlovu,2017-07-14 Cover Title Copyright Contents Preface Introduction and rationale 1 The view of South African youth before FeesMustFall 2 Were the 2015 student protests a revolution 3 What the 2015 protests actually were and how they were possible 4 Ikhohlisan ihlomile FMF students engagement with power and their ideological differences 5 Can South Africa s declining economy inspire student led new revolution 6 Youth s declining news consumption levels and ideologically divided media 7 Youth s polysemic interpretation of the ANC regime and the limits of the new revolution 8 Youths declining participation levels in the public sphere the constraints of new revolution 9 Conclusion FMF protests will not lead to a revolution per se at least not yet but to wide ranging reforms References Index

Goat Science Sándor Kukovics,2023-01-18 This volume provides a comprehensive overview of goat keeping and farming It includes twenty two chapters that address such topics as breeding and selection goat reproduction production systems the effects of goat farming on the environment the use of goat byproducts the economics of goat farming and much more

Breaking a Rainbow, Building a Nation Rekgotsofetse Chikane,2018-10-01 Breaking a Rainbow Building a Nation is a first hand account of the university protests that gripped South Africa between 2015 and 2017 widely better known as the FeesMustFall Chikane outlines the nature of student politics in the country before during and after the emergence of MustFall politics exploring the political dynamics that informed and drove the student protests and the effect that these MustFall movements have had on the nature of youth politics in the country Chikane looks at how the current nature of youth politics is different from previous youth upheavals that have defined South Africa specifically due to the fact that the protests were being led by so called coconuts who are part of the black elite Breaking a Rainbow Building a Nation poses the provocative question can coconuts be trusted with the revolution **African Languages in Classrooms and Academia: Intellectualisation and Empowerment through Formal Education** Xolisa Tshongolo,2024-12-02 To date there have been few comprehensive books published which deal specifically with the role of African languages in academia and formal

education Motinyane Mletshe and Tshongolo as editors have produced a book that fills this gap In this timely collection of 21 chapters written in African languages and English the contributors offer a critique of both language practice in the classroom as well as language planning policy creation and implementation challenges A timely and innovative contribution in the area of language in education teaching pedagogy as well as multilingualism Culture, philosophies and reforms in public administration for the globalizing world Edwin O.C. Ijeoma,Ogochukwu I. Nzewi,2018-12-31 The aim of this scholarly collected work is to contribute to the scientific discourse on public administration in a globalised environment The book reflects on governance challenges in South Africa and in Africa with its point of departure being the master narratives the so called grand debates such as New Public Management and specifically the role of technology It also reflects on the so called middle range discourses concerning organisational level issues in government e g leadership and work procedures and explores new solutions to old governance challenges like corruption and service delivery The uniqueness of this collected work lies in its ability to reflect on existing philosophies and practices in an innovative way Through its multidisciplinary lens the book opens up a new vision for the future of public administration in the South African context and on the African continent not neglecting the current local regional and global environment Until recently globalisation was considered an entrenched world order but international political events during the course of the past few years have resulted in one of the biggest challenges to its endurance in recent history This includes developments such as the successful referendum in Britain to exit the European Union highlighting the growth of a severe nationalist and protectionist agenda that may be a signal of the unravelling of the current globalism world order These developments inspire deeper interrogation of the challenges to effective public administration globally and the ripple effects in South Africa and Africa as a whole Pointedly it is evident that ensuring the voice of citizens in policy decision making remains a critical governance challenge On the policy front there are perennial challenges of land reform service delivery and poverty while on the governance front corruption has metastasised with a growing culture of impunity and lack of accountability in leadership In the midst of growing corruption and more than 20 years into democracy South Africa s income inequality remains one of the highest in the world This setting constitutes the context of the research outcome published in this scholarly work **The Origin and Growth of Geography as a**

discipline at South Africa Universities Gustav Visser,Ronnie Donaldson,Cecil Seethal,2016-09-20 **Beyond Tenderpreneurship** MISTRA MISTRA,2020-04-16 Black Economic Empowerment BEE policies have been a central pillar of attempts to overcome the economic legacy of apartheid Yet more than two decades into democracy economic exclusion in South Africa still largely reflects the fault lines of the apartheid era Current discourse often conflates BEE with the so called tenderpreneurship referred to in the title namely the reliance of some emergent black capitalists on state patronage Authors go beyond this notion to understand BEEs role from a unique perspective They trace the history of black entrepreneurship and how deliberate policies under colonialism and its apartheid variant sought to suppress this impulse In the context of

modern South Africa authors interrogate the complex dynamics of class formation economic empowerment and redress against the backdrop of broader macroeconomic policies They examine questions relating to whether B BEE policies are informed by strategies to change the structure of the economy These issues are explored against the backdrop of the experiences of other developing countries and their journeys of industrialisation The relevant black empowerment experiences of countries such as the United States are also discussed The authors identify policy and programmatic interventions to forge the non racial future that the constitution enjoins South Africans to build

Contemporary Perspectives on Art and International Development Polly Stupples, Katerina Teaiwa, 2016-10-26 Visual artists craftspeople musicians and performers have been supported by the development community for at least twenty years yet there has been little grounded and critical research into the practices and politics of that support This new Routledge book remedies that omission and brings together varied perspectives from artists policy makers and researchers working in the Pacific Africa Latin America and Europe to explore the challenges and opportunities of supporting the arts in the development context The book offers a series of grounded analyses which cover strategies for the sustainability of arts enterprises innovative evaluation methods theoretical engagements with questions of art agency and social change artists entanglements with legal and structural frameworks processes of cultural mapping and the artist donor interface The creative economy is increasingly recognized as a driver of development and this book also investigates the contribution made by the arts to the processes of international development and considers how those processes can best be supported by development agencies Contemporary Perspectives on Art and International Development gives scholars of Development Studies Social and Cultural Geography Anthropology Cultural Policy Cultural Studies and Global Studies a contextually and thematically diverse range of insights into this emerging research field

with indigenous contexts and policymakers interested in the aspects of human activity upon which indigenous cultural concerns are based *Inclusive Businesses in Agriculture* Wytse Chamberlain, Ward Anseeuw, 2017-03-30 Inclusive business is hailed as a win win scenario for the development of poor communities yet there is little insight into how these inclusive businesses work and more importantly for whom This book aims for a thorough understanding of the range of inclusive businesses in agriculture by examining the structures they implement the actors involved and whether they are effectively inclusive of smallholders It presents a range of case studies and is therefore empirically based and practically oriented By offering a critical assessment of inclusive businesses overall it allows for a better perception of what works where and under which conditions It provides useful insights that will benefit smallholders agri businesses support groups policy makers and investors who are willing to promote more inclusive businesses that foster a better integration of smallholders into commercial value chains and a more equitable and sustainable agricultural sector *A Better Future* Jacqueline Bhabha, Wenona Giles, Faraaz Mahomed, 2020-09-17 Policy makers advocates and scholars have long concentrated on the importance of equal access to primary and secondary education as a foundation for a democratic and just society Despite the growing importance of higher and specialist education in an increasingly technological and skill focused global market tertiary education has attracted much less attention And yet universities and colleges are epicentres of egregious disparities in access which impinge on traditionally marginalized communities such as racial minorities migrants indigenous populations and people with disabilities By drawing attention to this issue and assembling first rate material from scholars and policy makers across the globe this book performs an invaluable service for those interested in understanding and fighting a highly significant violation of educational opportunity and social justice **Revisiting Unity and Diversity in Federal Countries** Alain-G. Gagnon, Michael Burgess, 2018-09-24 The principal aim of this book is to revisit the basic theme of unity and diversity that remains at the heart of research into federalism and federation It is time to take another look at its contemporary relevance to ascertain how far the bifocal relationship between unity and diversity has evolved over the years and has been translated into changing conceptual lenses practical reform proposals and in some cases new institutional practices This book is structured around four main parts 1 the evolving conception of diversity over time and across continents 2 the interplay between unity and diversity in complex settings 3 federalism as decision making and new institutional practices that have been put forward and tested and 4 constitutional design and asymmetrical federalism as a way to respond to legitimate and insistent claims and political demands
