Handbook on Green Infrastructure Danielle Sinnett, Nick Smith, Sarah Burgess, 2015-11-27 Green infrastructure encompasses many features in the built environment. It is widely recognised as a valuable resource in our towns and cities and it is therefore crucial to understand, create, protect and manage this resource. This Handbook sets the context for green infrastructure as a means to make urban environments more resilient, sustainable, liveable and equitable. Including state of the art reviews that summarise the existing knowledge as well as research findings, this Handbook provides current evidence for the beneficial impact of green infrastructure on health, environmental quality and the economy. It discusses the planning and design of green infrastructure as a strategic network down to the individual features in a neighbourhood and looks at the process of green infrastructure implementation, emphasising the importance of collaboration across multiple professions and sectors. This comprehensive volume operates at multiple spatial scales from strategic networks at the regional level to individual features in neighbourhoods with international case studies used throughout to illustrate key examples of good practice. This collection of expert contributions will be invaluable to students and academics in the fields of planning, urban studies and geography. The Corporation as a Protagonist in Global History, c. 1550-1750, 2018-12-10 William A Pettigrew and David Veevers put forward a new interpretation of the role Europe's overseas corporations played in early modern global history, recasting them from vehicles of national expansion to significant forces of global integration. Across the Mediterranean, Atlantic, Indian Ocean and Pacific, corporations provided a truly global framework for facilitating the circulation, movement and exchange between and amongst European and non-European communities, bringing them directly into dialogue, often for the first time. Usually understood as imperial or colonial commercial enterprises, *The Corporation as a Protagonist in Global History* reveals the unique global sociology of overseas corporations to provide a new global history in which non-Europeans emerged as key stakeholders in European overseas enterprises in the early modern world. Contributors include Michael D Bennett, Aske Laursen, Brock Liam D Haydon, Lisa Hellman, Leonard Hodges, Emily Mann, Simon Mills, Chris Nierstrasz, Edgar Pereira, Edmond Smith, Haig Smith and Anna Winterbottom. *Finance Law* Stephen Connelly, 2025-06-16 For the student who wishes to understand law as it is practised in a modern financial context, *Finance Law* offers the only up-to-date university level textbook which explains legal principles as they are applied in today's advanced financial transactions.
