Up Board Allahabad 2014:

In Deep Water Michael Brennan, 2019-09-13 Irish Water was set up in 2013 to introduce the most ambitious water metering programme in the world. The plan was to get Irish people to finally pay to upgrade a nineteenth century water system. The water metering programme began in August 2013 and was carried out at breakneck speed. However, it did not go to plan and the issue of water charges divided Ireland. There were nationwide demonstrations and confrontations in housing estates involving water meter contractors, garda and water charge protesters. The programme ended in political disaster with a humiliated government having to send out one million refunds. With access to unpublished documents and interviews with the key personalities on both sides, *In Deep Water* provides a blow by blow account of how it all went wrong. The rows at cabinet. The warnings that went unheeded. The water women. The smartphone wielding protesters. And the minister who threatened to reduce people's water to a trickle. Compulsively readable and fast paced, *In Deep Water* gives an inside view of the controversy that divided Ireland.

Austerity and Recovery in Ireland William K. Roche, Philip J. O'Connell, Andrea Prothero, 2016-12-06 In international commentary and debate on the effects of the Great Recession and austerity, Ireland has been hailed as the poster child for economic recovery and regeneration out of deep economic and fiscal contraction. While the genesis of Ireland's financial, economic and fiscal crisis has been covered in the literature, no systematic analysis has yet been devoted to the period of austerity, to the impact of austerity on institutions and people, or to the roots of economic recovery. In this book, a group of Ireland's leading social scientists present a multidisciplinary analysis of recession and austerity and their effects on economic, business, political and social life. Individual chapters discuss the fiscal and economic policies implemented, the role of international and in particular of EU institutions, and the effects on businesses, consumption, work, the labour market, migration, political and financial institutions, social inequality and cohesion, housing and cultural expression. The book shows that Ireland cannot be viewed uncritically as a poster child for austerity. While fiscal contraction provided a basis for stabilizing the perilous finances of the state, economic recovery was due in the main to the long established structure of Irish economic and business activity, to the importance of foreign direct investment and the dynamic export sector, and to recovery in the international economy. The restructuring and recovery of the financial system was aided by favourable international developments, including historically low interest rates and quantitative easing. Migration flows, nominal wage stability, the protection of social transfer payments, and the involvement of trade unions in severe public sector retrenchment, long established features of Irish political economy, were of critical importance in the maintenance of social cohesion.

Vivre Ici Alison J. Murray Levine, 2018-03-19 *Vivre Ici* analyzes a diverse selection of contemporary French documentaries about spaces and places in France. Integrating film theory, eco-criticism and cultural history, Levine investigates documentary cinema as experience. The book reveals a collage-like, fragmented vision of France as seen through documentary cameras and explores the social and political consequences of these films that matter.

significant set of reforms since the Nice Treaty with notably the doubling of the number of judges at the General Court and the disappearance of the Civil Service Tribunal. Controversies surrounding the process and outcomes of the reforms called for a broader reflection on the European Courts and the way they cope with old and new challenges. To this end, this volume brings together junior and seasoned academics and practitioners to take stock of the various aspects of these reforms and the overall functioning of the EU Judiciary from comparative insider and outsider perspectives. Broadening and deepening our understanding of the reorganisation of the EU Judiciary, the contributors offer incisive analyses of reforms and evolutions including a critical appraisal of the reform process and the role and powers of the CJEU, implications of the reforms for the Court of Justice and the General Court, lessons from the practice of the now dismantled Civil Service Tribunal, a reflection on the future Unified Patent Court, an evaluation of the role of the CJEU's members and staffs and their selection, an insider's perspective into the workings of the repeat players, Legal Services of the European Commission and of the European Parliament and the parties' lawyers, an assessment of the procedural reforms before the Court of Justice and the General Court with a specific focus on the PPU, the unfolding and impact of the digital revolution, e-Curia on the CJEU, the challenges of the languages regime and legal reasoning before the CJEU. Comparative perspectives elucidate specific judiciary reforms across Europe, including detailed analyses of developments at the European Court of Human Rights, the French Conseil Constitutionnel and the Supreme Court of the United Kingdom. As a timely assessment of the effects of recent reforms on the EU Courts' decision-making practices, roles and identities and more broadly on the legitimacy of the EU and its institutions as a whole, this book is unparalleled. It will be of great value to practitioners engaged in EU litigation, scholars of European law and policymakers at EU institutions and all those interested in judicial process and reform.
