Transforming Public Education in Africa, the Caribbean, and the Middle East Cynthia S Sunal, Kagendo Mutua, Oluseyi Matthew Odebiyi, 2019-05-01 Public education has expanded to serve large populations across the regions of Africa the Caribbean and the Middle East Many nations in these regions are moving into a phase of public education in which a variety of factors are being identified as influencing the quality of public education and its ability to serve all children and adolescents It has become evident that ethnic background gender religious affiliation and ability disability are important factors in who is served and how well the individual is served The chapters in this volume Book 8 of *Research on Education in Africa the Caribbean and the Middle East* document and describe the status success and limitations of public education's efforts at transformation They provide points from which further research and practice might occur

BRICS and the New American Imperialism Vishwas Satgar, Ferriar Adam, Samir Amin, Patrick Bond, William K Carroll, Christopher Chase-Dunn, Alexander Gallas, Ana Garcia, Karina Kato, Nivedita Majumdar, Keamogetswe Seipato, 2020-03-01 Challenges the mainstream understanding of BRICS and US dominance to situate the new global rivalries engulfing capitalism BRICS is a grouping of the five major emerging economies of Brazil Russia India China and South Africa Volume five in the *Democratic Marxism* series BRICS and the New American Imperialism challenges the mainstream

understanding of BRICS and US dominance to situate the new global rivalries engulfing capitalism It offers novel analyses of BRICS in the context of increasing US induced imperial chaos deepening environmental crisis tendencies such as climate change and water scarcity contradictory dynamics inside BRICS countries and growing subaltern resistance The authors revisit contemporary thinking on imperialism and anti imperialism drawing on the work of Rosa Luxemburg one of the leading theorists after Marx who attempted to understand the expansionary nature of capitalism from the heartlands to the peripheries The richness of Luxemburg s pioneering work inspires most of the volume s contributors in their analyses of the dangerous contradictions of the contemporary world as well as forms of democratic agency advancing resistance While various forms of resistance are highlighted among them water protests mass worker strikes anti corporate campaigning and forms of cultural critique this volume grapples with the challenge of renewing anti imperialism beyond the NGO driven World Social Forum and considers the prospects of a new horizontal political vessel to build global convergence It also explores the prospects of a Fifth International of Peoples and Workers

Sustainable Development Goals for Society Vol. 2 Godwell Nhamo,David Chikodzi,Kaitano Dube,2021-06-26 This book profiles various cases that are emerging in addressing global challenges in the context of SDGs for society in the era of climate change and covers case studies of projects being undertaken to tackle biodiversity food security climate change energy and water security The book is written by 37 authors and will appeal to various stakeholders including academics working within the identified thematic areas policy planners development agencies governments and United Nations agencies The adoption of the Sustainable Development Goals SDGs in 2015 ushered a new era in the global development agenda as the world transitioned from the Millennium Development Goals MDGs The new era of SDGs that are all inclusive unlike the MDGs with the focus now being on ensuring human success that is predicated on environmental protection The year 2020 marked five years post the adoption of the SDGs with increased calls for stock taking of progress made amid strong calls for a decade of action to accelerate the delivery of the SDGs by 2030 These calls have been louder now given the impact of the COVID 19 pandemic which reset the global economy and increased intensity of extreme weather events across the world Since climate change has emerged as one of the biggest threats to the achievement of the SDGs there has been growing concerns on its impact on biodiversity loss and the extinction of some species There are also concerns regarding increased food insecurity at the household level in some parts of the world particularly in Asia and Africa With the demand for climate change action on the increase there have also been growing calls for the big carbon emitters to drastically cut their emissions and invest in clean energy to save the planet by following development pathways making emissions stay under the 1.5 C increase in temperature

Enhancing Food Production System Resilience for Food Security Facing a Changing Environment Liming Ye,Ping Zhu,2023-11-28 As the dominant source of the human food supply the global land system underlies the foundation of the livelihood and wellbeing of humanity on Earth On the one hand the growth rate in the land system s productive capacity of food has played a key role in

global food provision Technological breakthroughs in wheat and rice production during the past few decades for instance have greatly contributed to the maintenance of this growth rate in many parts of the world On the other hand however the terrestrial food production system is facing increasing challenges from environmental stressors ranging from climate change air pollution to land degradation Whether and how the global land system will support the food security of more than 10 billion people in the 21st century while minimizing its environmental footprint remains an open question to debate It is inevitable that the global food production system has to be shifted from focusing on production expansion to land system resilience so that the dual goals of sustainable production and environmental friendliness can be simultaneously achieved

South Africa's Energy Transition Tobias Bischof-Niemz, Terence Creamer, 2018-07-11 South Africa's energy transition has become a highly topical emotive and politically contentious topic Taking a systems perspective this book offers an evidence based roadmap for such a transition and debunks many of the myths raised about the risks of a renewable energy led electricity mix Owing to its formidable solar and wind resources South Africa has an almost unparalleled opportunity to turn solar photovoltaic and onshore wind generators into the country's power generation workhorses a role hitherto played by coal This book shows that a renewables led mix will not only provide the lowest cost but will also create more jobs than any of the alternatives currently under consideration In addition it offers a glimpse of how South Africa's low cost and decarbonised electricity system can power a competitive industrial economy an electric mobility revolution and in the long run create new export opportunities This book will be of great interest to energy industry practitioners as well as students and scholars of energy policy and politics environmental economics and sustainable development *Research Companion to Construction Economics* Ofori, George, 2022-03-15 This innovative Research Companion considers the history nature and status of construction economics and its need for development as a field in order to be recognised as a distinct discipline It presents a state of the art review of construction economics identifying areas for further research **The Third Report on The State of the World's Plant Genetic Resources for Food and Agriculture** Food and Agriculture Organization of the United Nations, 2025-03-24 Plant genetic resources for food and agriculture PGRFA are the essence of sustainable agrifood systems They encompass the genetic diversity in both improved and farmers varieties as well as in crop wild relatives wild food plants and breeding materials The third report on the State of the World's Plant Genetic Resources for Food and Agriculture presents a comprehensive assessment of the conservation and sustainable use of PGRFA as well as the human and institutional capacities to support these efforts Based on information from 128 countries and four regional and 13 international research centres and the contribution from over 1 600 experts it presents an overview of progress since 2012 as well as current needs and challenges in the future management of PGRFA The report provides a sound basis for recalibrating relevant policies and strategies including the rolling Global Plan of Action for Plant Genetic Resources for Food and Agriculture Cross-cutting issues in the water, land, energy and food security nexus: Perspectives from sub-saharan
