Enthusiasms and Loyalties Keith Shepherd Grant, 2022-11-15 The Enlightenment Atlantic was awash in deep feelings People expressed the ardour of patriots the homesickness of migrants the fear of slave revolts the ecstasy of revivals the anger of mobs the grief of wartime the disorientation of refugees and the joys of victory Yet passions and affections were not merely private responses to the events of the period emotions were also central to the era s most consequential public events and even defined them In Enthusiasms and Loyalties Keith Grant shows that British North Americans participated in a transatlantic swirl of debates over emotions as they attempted to cultivate and make sense of their own feelings in turbulent times Examining the emotional communities that overlapped in Cornwallis Township Nova Scotia between 1770 and 1850 Grant explores the diversity of public feelings from disaffected loyalists to passionate patriots and ecstatic revivalists He shows how certain emotions especially enthusiasm and loyalty could be embraced or weaponized by political and religious factions and how their use and meaning changed over time Feelings could be the glue that made loyalties stick or a solvent that weakened community bonds Taking a history of emotions approach Enthusiasms and Loyalties aims to recover and understand the wide range of political and religious emotions that were possible feelable in the Enlightenment Atlantic

Reconstructing the Landscapes of Slavery Dale W. Tomich, Rafael de Bivar Marquese, Carlos Venegas Fornias, Reinaldo Funes Monzote, 2021-03-19 Assessing a unique collection of more than eighty images this innovative study of visual culture reveals the productive organization of plantation landscapes in the nineteenth century Atlantic world These landscapes from cotton fields in the Lower Mississippi Valley to sugar plantations in western Cuba and coffee plantations in Brazil s Para ba Valley demonstrate how the restructuring of the capitalist world economy led to the formation of new zones of commodity production By extension these environments radically transformed slave labor and the role such labor played in the expansion of the global economy Artists and mapmakers documented in

surprising detail how the physical organization of the landscape itself made possible the increased exploitation of enslaved labor Reading these images today one sees how technologies combined with evolving conceptions of plantation management that reduced enslaved workers to black bodies Planter control of enslaved people s lives and labor maximized the production of each crop in a calculated system of production Nature too was affected the massive increase in the scale of production and new systems of cultivation increased the land s output Responding to world economic conditions the replication of slave based commodity production became integral to the creation of mass markets for cotton sugar and coffee which remain at the center of contemporary life
