Eurasian Empires as Blueprints for Ethiopia Asnake Kefale, Tomasz Kamusella, Christophe Van der Beken, 2021-02-17 This book is a contribution to the global history of the transfer of political ideas as exemplified by the case of modern Ethiopia Like many non European nation states Ethiopia adopted a western model of statehood that is the nation state Unlike the postcolonial polities that have retained the mode of statehood imposed on them by their colonial powers Ethiopia was never successfully colonized leaving its ruling elite free to select a model of modern western statehood In 1931 via Japan they adopted the model of unitary ethnolinguistically homogenous nation state in turn copied by Tokyo in 1889 from the German Empire founded in 1871 Following the Ethiopian Revolution 1974 that overthrew the imperial system the new revolutionary elite promised to address the nationality question through the marxist leninist model The Soviet model of ethnolinguistic federalism originally derived from Austria Hungary was introduced in Ethiopia first in 1992 and officially with the 1995 Constitution To this day the politics of modern Ethiopia is marked by the tension between these two opposed models of the essentially central European type of statehood The late 19th century German German quarrel on the proper model of national statehood for Germany or more broadly modern central Europe remains the quarrel of Ethiopian politics nowadays The book will be useful for scholars of Ethiopian and African history and politics and also offers a case in comparative studies on the subject of different models of national statehood elsewhere

The Human Place in Nature John Schooneveldt, 2025-04-02 This book explores a new approach to understanding the evolution of mind and consciousness by examining the perceptual abilities of animals and the way they experience their world It offers a science based bottom up

approach to our own conscious worldview by seeing it through the eyes of others Emphasis is on the role of context in evolution and the way animals internalize and engage with the contextual properties of their world that are meaningful for them The core argument is that a context which is subjective and comprised of the perceptual capacities offers new insights into the evolution of mind Rather than seeing biological evolution in terms of the emergence of mindless forms and cultural evolution as the emergence of disembodied minds the book seeks to integrate these two perspectives through the rigorous mapping of contexts Key Features Reveals an understanding of animal minds Formulates a hypothesis for the evolution of consciousness Includes a discussion of the origin of technological innovation Provides a rationale for the ecology of mind Proposes a theory of the evolution of language Outlines the science of experience and how it influences choice Explains the role of context and choice with respect especially to human ecology
