II Esther Mavengano, Sophia Chirongoma, 2023-08-08 Volume two of Electoral Politics in Zimbabwe The 2023 Election and

This book critically examines the current social policy in post apartheid South Africa and proposes an alternative social policy agenda to create a new development pathway for the country Taking social policy as a vehicle that will facilitate the creation of a new society altogether namely the Good Society the author argues for the adoption of policy that will socially re engineer South Africa The author shows how the policy tools and development interventions which were undertaken by the post apartheid state in driving South Africa's transformation agenda failed to emancipate many individuals families and communities from the cycle of intergenerational poverty and underdevelopment He contends that social policy interventions that foster the social re engineering of South African society must take place to untangle the inherited colonial apartheid social order This book includes comparative analyses on the Global South and Global North to present the ways in which countries such as post Second World War Great Britain and Sweden and post independence Zambia of the 1960s and 1970s were able to use social policy to create new societies altogether or places similar to the Good Society The conceptual and methodological issues that form the basis for this book reside in public policy making and the public good and will be of interest to scholars of social policy social development and South African society *The Principle of Solidarity* Eva

Kassoti, Narin Idriz, 2023-02-13 This edited volume explores the principle of solidarity in international and EU law Although the concept is regularly invoked in international and EU legal and policy debates alike its meaning nature and functions as well as normative contours still remain nebulous The contributions in this volume reflect on the legal trajectory of solidarity in international and EU law and offer unique insights into the evolution and status of the principle in different fields of international and EU law By doing so the book also serves as a springboard for answering broader questions pertaining to what the stage of development of this principle may imply for the two legal orders and their interaction As the chapters of this book show the debate on solidarity is premised on conflicting visions regarding the values underpinning the international legal order as well as the self interest or community oriented driving forces behind States action at the international level The regional EU law perspective offers a new lens through which to revisit classic questions pertaining to the nature of modern international law and to assess its continuing relevance in a world of regional organizations presenting different

visions and levels of co operation This book the second volume to appear in the Global Europe Series will appeal to international and EU law researchers and policy makers alike with an interest in the nature and function of the principle of solidarity in international and EU law Eva Kassoti is Senior researcher in EU and International Law at the T M C Asser Institute in The Hague The Netherlands and the Academic Co ordinator of CLEER Narin Idriz is Researcher in EU Law at the T M C Asser Institute in The Hague The Netherlands
