Assessing Academic Literacy in a Multilingual Society Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience. Afterimages of Apartheid Kylie Thomas, 2025-10-29 *Afterimages of Apartheid* shows how photographs of the past can be mobilised as a critical tool for understanding the ongoing effects of apartheid in contemporary South Africa. Through close readings of significant images made during and after apartheid the book shows how photography works as a means of documentation, commemoration and resistance. Written by one of South Africa's leading scholars of visual history the book considers the ways in which photographs can be used to contest impunity for state violence. *Afterimages* includes chapters on the Sharpeville and Marikana massacres, on the re-opening of cases of human rights violations that remain unresolved in the aftermath of the South African Truth and Reconciliation Commission and on contemporary protests against the post-apartheid state. The book makes a powerful case for the role of photographs in drawing the viewer into the past time they represent, issuing a call to the living to remember, respond and react. This vivid account of the photography of apartheid will be of interest to students and researchers across the fields of South African history, visual studies, memory studies, art history, photography studies and transitional justice. *Beyond the Mountain* B Camminga, Zethu Matebeni, 2023-02-10 *Beyond the Mountain* Queer Life in Africa's Gay Capital contributes to the body of knowledge on the lived experiences of lesbian, gay, bisexual, transgender, queer and intersex LGBTQI communities in Cape Town. The book provides insight on the lives of the LGBTQI communities in Cape Town and challenges the stereotypes and prejudices against these communities. The chapters consist of both narratives of lived experiences and academic discussions presented by novice as well as experienced scholars. The imagery of *beyond the mountain* is a depiction of the lives of the LGBTQI community and immovable negative perceptions the general public have to them and seeks to expose their world and the kinds of violence and abuse they are subjected to as well as unveiling the racial discrimination within these communities. The book revolves around five themes: education, emancipation, protection, acceptance and integration of those who identify as LGBTQI people in society. *Information Systems Architecture and Technology: Proceedings of 40th Anniversary International Conference on Information Systems Architecture and Technology*
