Shaping Education Policy Douglas E. Mitchell, Dorothy Shipps, Robert L. Crowson, 2017-09-27 *Shaping Education Policy* is a comprehensive overview of education politics and policy which provides conceptual guideposts for future policy development and strategies for change. Leading scholars explore the interacting social processes and the dynamics of power politics as they intersect with democratic ideals and shape school performance. Chapters cover major themes that have influenced education including the Civil Rights Movement, federal involvement, the accountability movement, family choice, and development of nationalization and globalization. This edited collection examines how education policy in the United States has evolved over the last several decades and how the resulting policies are affecting schools and the children who attend them. This important book is a necessary resource for understanding the evolution, current status, and possibilities of educational policy and politics.

Race and Crime Shaun L. Gabbidon, Helen Taylor Greene, 2018-08-20 This is a great tool that provides not only historical perspective but also incorporates additional resources to help expand the student's ability to understand an issue and implications stemming from it. Robbin Day Brooks, Arizona State University. Written by two of the most prominent criminologists in the field, *Race and Crime*, Fifth Edition, takes an incisive look at the intersection of race, ethnicity, and the criminal justice system. Authors Shaun L. Gabbidon and Helen Taylor Greene offer students a panoramic perspective of race and crime by expertly balancing historical context with modern data and research in thought-provoking discussions of contemporary issues. Accessible and reader-friendly, this comprehensive text illuminates the continued importance of race and ethnicity in all aspects of the administration of justice. New to the Fifth Edition: Both Sides of the Debate boxes encourage student engagement and critical thinking as they explore both sides of controversial issues such as school shootings, the Model Minority label, affluenza, eliminating peremptory challenges, President Trump's judicial appointments, the underreporting of hate crimes, the increase of opioid use among Black Americans, and expanding the death penalty for opioid dealers. Extensive updates around policing provide a foundational understanding of important issues such as policing and the use of force, the Black Lives Matter movement, the Blue Lives Matter movement, the need for diversity in law enforcement, traffic stops, and the connection between immigration and policing. Key court rulings are included along with updated discussions of racial disparities in plea bargains, backstrikes of potential jurors, wrongful convictions, and intersectionality in death penalty decisions. Important topics such as life after prison and the impact of felony disenfranchisement on minorities help contextualize the discussion of corrections. Updated data tables such as crime and victimization trends, hate crime incidents, and juvenile crime victimization put the study of race and crime in complete context. Discussions of the Trump Administration's policies capture the current state of crime and justice policies in the United States. Updated data tables such as crime and victimization trends, hate crime incidents, and juvenile crime victimization put the study of race and crime in complete context for students. *Scientific and Technical Aerospace Reports*, 1986
