the three essays so that the free response section is composed of three scores The three essays are weighted equally and the total weight of the free response section is fifty five percent of the total score The multiple choice section accounts for forty five percent of the total score Each year the overall grades may fluctuate because the grading scale depends upon the performance of students in past AP administrations The following method of scoring along with the corresponding chart will give you an approximation of your score It will not indicate the exact score you would get on the actual AP English Language Composition Exam **Essays that Worked for College Applications** Boykin Curry,Brian Kasbar,2003-07-29 Essays that Worked for College Applications offers advice on writing a successful college admissions essay and presents fifty examples
