(Q.1-3): Read the following passage carefully and choose the correct option to answer the questions that follow-

This is a great lesson for all of us to learn, that in all matters the two extremes are alike. The extreme positive and the extreme negative are always similar. When the vibrations of light are too slow we do not see them, nor do we see them when they are too rapid. So with sound, when very low in pitch we do not hear it, when very high we do not hear it either. Of like nature is the difference between resistance and non-resistance. One man does not resist because he is weak, lazy and cannot; the other man knows that he can strike an irresistible blow if he likes, yet he not only does not strike but blesses his enemies. The weak who shows non resistance is oppressed while the stronger one commits a sin if he offers resistance.

Q.1. We are unable to hear a sound if

1

- a) it is too low
- b) it is too high
- c) it is too noisy
- d) both a and b
