Spinoff, 2005 **The Map in the Machine** Luis F. Alvarez Leon, 2024-05-07 Digital technologies have changed how we shop work play and communicate reshaping our societies and economies To understand digital capitalism we need to grasp how advances in geospatial technologies underpin the construction operation and refinement of markets for digital goods and services In *The Map in the Machine* Luis F Alvarez Leon examines these advances from MapQuest and Google Maps to the rise of IP geolocation ridesharing and a new Earth Observation satellite ecosystem He develops a geographical theory of digital capitalism centered on the processes of location valuation and marketization to provide a new vantage point from which to better understand and intervene in the dominant techno economic paradigm of our time By centering the spatiality of digital capitalism Alvarez Leon shows how this system is the product not of seemingly intangible information clouds but rather of a vast array of technologies practices and infrastructures deeply rooted in place mediated by geography and open to contestation and change **Homo Universalis: The Awakening of a Planetary Consciousness** ABHIJEET SARKAR, 2025-10-25 *Homo Universalis The Awakening of a Planetary Consciousness* by Abhijeet Sarkar CEO it is a manual for the Inner Transition required of our generation It reframes our greatest crises as an evolutionary invitation to mature from Homo Tribus to Homo Universalis Deeply researched profoundly optimistic and breathtaking in its scope *Homo Universalis* is the book our species has been waiting for It is the story of our Great Forgetting and our Great Awakening It is the testament to the potential lying dormant within us waiting for The First Day *Handbook of Research on Individualism and Identity in the Globalized Digital Age* Topor, F. Sigmund, 2016-08-15 Globalization has shifted perspectives on individualism and identity as cultural exchange occurs more rapidly in an age of heightened connectivity As technology connects those around the world it too helps to provoke a shift in the autonomy of individuals The *Handbook of Research on Individualism and Identity in the Globalized Digital Age* is an essential resource for researchers professionals and graduate level students This book explores and explains how globalization has impacted humans with specific emphasis on education and human development This research based publication presents critical perspectives on universal changes that are occurring due to globalization **The Offshoring of Engineering** National Academy of Engineering, Committee on the Offshoring of Engineering, 2008-08-14 The engineering enterprise is a pillar of U S national and homeland security economic vitality and innovation But many engineering tasks can now be performed anywhere in the world The emergence of offshoring the transfer of work from the United States to affiliated and unaffiliated entities abroad has raised concerns about the impacts of globalization The *Offshoring of Engineering* helps to answer many questions about the scope composition and motivation for offshoring and considers the implications for the future of U S engineering practice labor markets education and research This book examines trends and impacts from a broad perspective and in six specific industries software semiconductors personal computer manufacturing construction engineering and services automobiles and pharmaceuticals

The Offshoring of Engineering will be of great interest to engineers engineering professors and deans and policy makers as well as people outside the engineering community who are concerned with sustaining and strengthening U S engineering capabilities in support of homeland security economic vitality and innovation
