Tomarken, 2014-07-14 To teach the truth smilingly was during the Renaissance a frequently expressed goal among prose writers and poets such as Erasmus Berni Ronsard Rabelais and du Bellay who adopted an ironic posture within their mock encomia in order to refer the reader beyond the realm of the literary structure In this book Annette Tomarken reconstructs the history of the classical satirical eulogy as it was revived expanded and finally adapted to new purposes in Renaissance literature Tracing the development of this type of paradox from its classic roots through the Neo Latin Italian and French mock encomia Tomarken examines its various forms in the Renaissance including the Pliade hymne blason the mock epitaph and the stage harangue Her book provides a new context for such works as In Praise of Folly and for such literary passages as Rabelais s praise of debts and Falstaff s denunciation of honor Dividing the eulogies into three groups praises of vices disease and animals and insects Tomarken brings humor as well as close textual analysis to her study She finds that the practitioners of the form were aware of its history and that such self awareness became an integral part of the works themselves An increased sensitivity to the literary structure and history of the paradoxical encomium Tomarken stresses first requires and then enriches our understanding of the genre s relationship to the extra literary domain Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Annales du Sénat et du Corps législatif*, 1867 **Philosophy of Justice** Guttorm Fløistad, 2014-09-10 This book presents surveys of significant trends in contemporary philosophy Contributing authors explore themes relating to justice including natural rights equality freedom democracy morality and cultural traditions Key movements and thinkers are considered ranging from ancient Greek philosophy Roman and Christian traditions to the development of Muslim law Enlightenment perspectives and beyond Authors discuss important works

Beyond Foucault Anne Brunon-Ernst, 2016-04-15 In his hugely influential book *Discipline and Punish* Foucault used the example of Jeremy Bentham's Panopticon prison as a means of representing the transition from the early modern monarchy to the late modern capitalist state In the former power is visibly exerted for instance by the destruction of the body of the criminal while in the latter power becomes invisible and focuses on the mind of the subject in order to identify marginalize and treat those who are regarded as incapable of participating in or unwilling to submit to the disciplines of production The Panopticon links the worlds of Bentham and Foucault scholars yet they are often at cross purposes with Bentham scholars lamenting the ways in which Foucault is perceived to have misunderstood panopticon and Foucauldians apparently unaware of the complexities of Bentham's thought This book combines an appreciation of Bentham's broader project with an engagement of Foucault's insights on economic government to go beyond the received reading of panopticism as a dark disciplinary technology of power Scholars here offer new ways of understanding the Panopticon projects through a wide

variety of topics including Bentham's plural Panopticons and their elaboration of schemes of panoptic Utopia the inverted Panopticon panoptic governance political panopticism and legal panopticism French studies on the Panopticon are groundbreaking and this book brings this research to an English speaking audience for the first time It is essential reading not only for those studying Bentham and Foucault but also those with an interest in intellectual history of the eighteenth and nineteenth centuries and those studying contemporary surveillance and society Prison Information Bulletin ,1983
