facets of higher education **Critical management studies in the South African context** Geoff A. Goldman, C.W. Callaghan, Gregory John Lee, Nthabiseng V. Moraka, Hester Nienaber, Shaun Ruggunan, Whitey (Tjaart Nicholaas) van der Linde, 2016-12-31 The purpose of this book is to establish the first formalised scholarly work on critical management studies CMS in the South African context The book is a collection of seven chapters six of which employ a conceptual methodology and one of which follows an interpretive paradigm employing qualitative methods of inquiry CMS is a relatively young school of thought arising in the early 1990s and still very much a peripheral movement within the academic discipline of management South Africa has very little scholarship on CMS as precious few scholars work in this space Furthermore publication opportunities are virtually non-existent as CMS is virtually unknown in the South African community of management scholars Thus this book represents the first academic work on CMS published in South Africa written and reviewed by scholars who are familiar with the field The primary target readership would be management academics but it could also be a useful reference for postgraduate students in management *Raising the Impact of Education Research in Africa* Charl C. Wolhuter, 2018-12-01 The low demonstrable effect of education research done in South Africa in particular and Africa in general continues to be a problem in scientific records in the educational sciences This scholarly collected work addresses this obstacle and focuses on recommendations from scholars in different sectorial categories in the field of education Scholars from a variety of sub-fields within the educational sciences reflect on this particular matter revisiting the history of research and research outcomes and offering informed recommendations based on in-depth investigation and analysis of aspects of the various discourses within the relevant sub-fields The scope of the content of this collected work centres on the issue of the lack of scientific records concerning the scientific raising of the impact of education research The book aims at making a specific contribution to the educational sciences by stimulating scholarly discussion around how to increase the recording of the significance of educational research done in Africa and in South Africa in particular and to redirect the research agenda into the direction of making more impact Impact is conceptualised to mean both scholarly impact that is being cited and being used as foundation for theory building and for further research and practical impact that is improvement of practice teaching and learning in education institutions at all levels *Discipline in Education* Johan Botha, 2021 This book addresses a perennial challenge to the success of the South African education system namely discipline This volume steers the interrogation of discipline in a new direction reflecting on ways in which recent research can benefit South African schools This includes the need for alternative discipline that will enhance education The scholarly contribution lies in its in-depth exploration of the relevance of research findings to South African schools and to the twenty-first century socio-political environment For the first time scholarly interrogation of the issue of learner discipline in South African schools draws on indigenous knowledge systems Its post-colonial and decolonial perspectives offer an ethical and moral compass for behaviour that could contribute to the well-being of South African society and other societies similarly afflicted by anti-social

behaviour The book offers a range of perspectives on the debates on discipline and associated issues and should stimulate future discussions on discipline and indiscipline at a time when South Africa and many other societies engage with the effects of social and political transformation This scholarly book is aimed at academics and researchers The contributors include philosophers moralists corporativists education law specialists curriculum specialists specialists in education and culture advocates of ubuntu and people using meta syntheses of approaches and practices and religious practices such as a Christian ethical moral approach to parental and school discipline They draw on their insights into postcolonialism the impact of indigenous knowledge theories of agency dysfunctionality and school underperformance The book offers an intriguing depiction of opposing views on discipline
