

WELDING SERIES

Equipment Highlight

We are thrilled to introduce the latest addition to our welding equipment lineup—the Pipe Fitting Simulation Skid. This training equipment is designed to elevate your welding experience to new heights.

The Welding Department has designed and initiated the construction of a new pipe-fitting simulation skid funded with the Strong Workforce grant. This simulation skid aims to develop much-needed pipe-fitting skills to complement the pipe welding skills currently being taught.

Following the construction of this training equipment, the next step would be to supply various supporting tools (pneumatic, electric, and hand tools), various supporting parts (plate blinds, slip blinds, etc.), and equipment for hydrostatic testing (hydro pump and hydro tree).

Access to the pipe-fitting simulation skid at Cerritos College equips students with a diverse skill set. This enhanced skill set not only makes them more competitive in the job market but also positions them for career advancement within the welding industry.
