Western Muslims And The Future Of Islam:

Western Muslims and the Future of Islam Tariq Ramadan, 2003-11-27 Tariq Ramadan one of Europe's leading thinkers and one of Islam's most innovative and important voices explores in this volume what it means to be a Western Muslim addressing a topic that is vitally important to the futures of both Islam and the West Ramadan claims that a silent revolution is sweeping Islamic communities in the West as Muslims actively seek ways to live in harmony with their faith within a Western context French English German and American Muslims women as well as men are reshaping their religion into one that is faithful to the principles of Islam dressed in European and American cultures and definitively rooted in Western societies

Western Muslims and the Future of Islam Tariq Ramadan, 2004 Begins by offering a reading of Islamic sources interpreting them for a Western context The author demonstrates how an understanding of universal Islamic principles can open the door to integration into Western societies He then shows how these principles can be put to practical use

Western Muslims T Ramadan, 2004-12-01 The People on the Edge Abdelwahab El-Affendi, Are western Muslims an endangered species or are they the future of Islam The accelerated adaptation and change western Muslims are pushed to make in order just to survive has galvanized them into a serious effort of rethinking and reflection This has in turn moved the worldwide debate on Islamic reform into a new higher gear While Muslim intellectual activism in the West had deep historical roots the claims of the new emerging movements and intellectual figures to moral intellectual and religious leadership of the Ummah are unprecedented in their boldness and pride in their specifically western modernist credentials Moreover it is paradoxical that what is in essence a response to the precariousness of the increasingly vulnerable Muslim presence in the West is at the same time trying to present itself as the most authoritative interpretation of Islam This paper traces the historical roots of western Muslim intellectual activism and assesses its success in attracting support both within the West and the wider Muslim world

What I Believe Tariq Ramadan, 2009-10-06 Ramadan in this work lays out the basic ideas he stands for in clear and accessible prose He describes the book as a work of clarification directed at ordinary citizens politicians journalist and others who are curious or skeptical about his positions Aware that that he is dealing with emotional issues Ramadan tries to get past the barriers of prejudice and misunderstanding to speak directly from the heart to his Muslim and non Muslim readers alike

Islam and the Arab Awakening Tariq Ramadan, 2012-09-03 One of the most important developments in the modern history of the Middle East the so called Arab Spring began in Tunisia in December 2010 bringing down dictators sparking a civil war in Libya and igniting a bloody uprising in Syria Its long term repercussions in Egypt and elsewhere remain unclear Now one of the world's leading Islamic thinkers examines and explains it in this searching provocative and necessary book Time Magazine named Tariq Ramadan one of the most important innovators of the twenty first century A Muslim intellectual and prolific author he has won global renown for his reflections on Islam and the contemporary challenges in both the Muslim majority societies and the West In *Islam and the Arab Awakening* he explores

the uprisings offering rare insight into their origin significance and possible futures As early as 2003 he writes there had been talk of democratization in the Middle East and North Africa The U S government and private organizations set up networks and provided training for young leaders especially in the use of the Internet and social media and the West abandoned its unconditional support of authoritarian governments But the West did not create the uprisings Indeed one lesson Ramadan presents is that these mass movements and their consequences cannot be totally controlled Something irreversible has taken place dictators have been overthrown without weapons But he writes democratic processes are only beginning to emerge and unanswered questions remain What role will religion play How should Islamic principles and goals be rethought Can a sterile polarizing debate between Islamism and secularism be avoided Avoiding both naive confidence and conspiratorial paranoia Ramadan voices a tentative optimism If a true civil society can be established he argues this moment s fragile hope will live

The Theology of Tariq Ramadan Gregory Baum, 2009 Tariq Ramadan has emerged as one of the most influential Muslim theologians in the world today In this important book Gregory Baum presents for the first time an introduction to several key aspects of Ramadan s theological enterprise Baum examines Ramadan s work historically within an interfaith perspective drawing several parallels between Islamic and Catholic encounters with modernity His comparison of the debates in the two traditions suggests that reform and renewal are compatible with the substance of both Catholic and Muslim traditions After a brief account of the evolution of Catholic theology up to the Second Vatican Council Baum introduces Ramadan s published work and theological orientation examining both within the historical development of Islam He outlines Ramadan s theology of God humanity and the universe and discusses Ramadan s interpretation of sharia the divinely revealed Islamic way of life The book then addresses what fidelity to Islam means for Western Muslims and contrasts Ramadan s theology with the theological liberalism advocated by some Muslim authors Throughout Baum makes helpful connections between Islam and Vatican II Catholicism Both belief systems are steeped in ancient traditions rely on a sacred book and find themselves confronting a modern context Reformist Islam shares much with Catholic social thought in showing a regard for the poor and marginalized Baum concludes by examining points of difference between Muslim and Catholic theology that support further conversation This readable introduction to Ramadan s work is accessible to non Muslim students teachers clergy and general readers interested in Islam and interfaith dialogue This book is a beautiful example of serious theological dialogue between two seminal theologians of our age Gregory Baum and Tariq Ramadan It is a balanced and significant contribution to scholarship about Ramadan s thought for at least two reasons first it provides a very important perspective on the similarities that Catholicism earlier and Islam today have shared in facing the many challenges of modernity and second the conclusion Professor Baum reaches may be short but is profound the time for religious secular dialogue has come Patrice Brodeur Canada Research Chair on Islam Pluralism and Globalization Universite de Montreal Gregory Baum is a gift to the Church and indeed to the world A stalwart of the Vatican II era he is now an eminence grise of

North American Christianity in its efforts to engage the secular world through a confident and critical dialogue about meaning. In this remarkable and pioneering volume he engages contemporary Islam through a typically generous reading of one of its most influential theologians Tariq Ramadan. Avoiding the often silly but sometimes brutal polemics that have obscured the quality of Ramadan's reformist thought, Baum notes the striking affinities between Islam's and Catholicism's respective encounters with democracy, religious freedom, and critical reading of sacred sources among other contested issues. Having absorbed the deepest insights of Catholicism's recent revolution in self-understanding, a revolution he helped to stimulate and advance, this unofficial, quietly charismatic ambassador of Christian intellectual innovation has provided invaluable insight into the mind of the person who has been termed the Muslim Martin Luther. Baum, as he has in the past, is pointing the way forward for innovative and serious theological work in the opening of sustained dialogue and conversation with the contemporary current of Islamic reform, represented by figures like Ramadan. He rightly sees an opportunity for a renewal of Catholic theology in its service to the cause of reconciliation and peace.

The Future of Islam and the West Shireen T. Hunter, 1998-03-25 Shireen Hunter provides a pragmatic analysis of relations between Islam and the West, marked by specific cases from the contemporary Islamic West. Her book gives a realistic and accurate assessment of the relative role of civilizational factors in determining the nature of the state and the prospects for Muslim-Western relations, i.e. whether they will be conflictual or cooperative. Hunter answers the question: Can an accommodation between Islam and the West take place in a gradual and evolutionary manner, or will it happen only after conflict and confrontation? And contrary to Huntington's vaunted thesis in *The Clash of Civilizations and the Remaking of World Order* (Simon Schuster, 1996), she finds that the reality of modern Islam offers room for hope. Hunter challenges many of the prevailing Western views of the Muslim world. For example, despite the widespread belief in the specificity of Islam because of an assumed fusion of politics and religion, in reality the fusion of the spiritual and the temporal has not been greater in Islam than in other religions. Therefore, Hunter asserts, the slower pace of secularization in Muslim countries can not be attributed to Islam's specificity. This is a major study that will be of interest to concerned citizens as well as scholars and students of the Middle East and Islam.

Europe and Its Muslim Minorities Amikam Nachmani, 2009 The presence of Muslim communities in Europe is a politically charged issue. Sporadic attacks by radical Muslims have further highlighted the problem of a deep cultural divide between the Muslims and their host countries. This book presents a picture of the causes and effects of Muslim immigration to the West.

Theology in the Irish Public Square Gerard F. O'Hanlon, Gerry O'Hanlon, 2010 O'Hanlon draws on the rich resources of Christian humanism to make connections between faith and real life at a time of crisis and darkness. He does so in a way which will be of interest to believers including Muslims and non-believers alike, as we join together as fellow citizens to work for a more just and sustainable world. He argues that in the wake of the Ryan and Murphy Reports, the Catholic Church in particular needs radical reform if it hopes to make its religious and
