Social Structure & Person Talcott Parsons, 2010-05-11 A Collection of essays which studies the

theoretical problem of relationships between social structure and personality and how these different relationships merit distinct treatment for particular purposes Parsons concludes that in the larger picture their interdependencies are so intimate that bringing them together in an interpretive synthesis is imperative if a balanced understanding of the complex as a whole is to be attained

The Perceptual Structure of Three-Dimensional Art Paul M.W. Hackett, 2016-12-26 This book deals with philosophical aspects regarding the perception of spatial relationships in two and three dimensional art It provides a structural understanding of how art is perceived within the space created by the artwork and employs a mapping sentence and partial order mereology to model perceptual structure It reviews the writing of philosophers such as Paul Crowther and art theorists such as Krauss to establish the need for this research The ontological model established Paul Crowther is used to guide an interactive account of his ontology in the interpretations of the perceptual process of three dimensional abstract art to allow the formulation of a more comprehensive philosophical account The book uniquely combines structuralist and post structuralist approaches to artistic perception and understanding with a conceptual structure from facet theory which is clarified with the help of a mapping sentence and partial order mereology

Structural Dividers in the Qur'an Marianna Klar, 2020-12-03 This volume showcases a wide range of contemporary approaches to the identification of literary structures within Qur'anic surahs Recent academic studies of the Qur'an have taken an increasing interest in the concept of the surah as a unity and with it the division of complete surahs into consecutive sections or parts Part One presents a series of case studies focussing on individual Qur'anic surahs Nevin Reda analyzes the structure of Surah al-Imran Q 3 Holger Zellentin looks at competing structures within Surah al-Ala' Q 96 and A H Mathias Zahniser provides an exploration of the ring structures that open Surah Maryam Q 19 Part Two then focusses on three discrete aspects of the text Nora K Schmid assesses the changing structural function of oaths Marianna Klar evaluates how rhythm rhyme and morphological parallelisms combine in order to produce texture and cohesion while Salwa El Awa considers the structural impact of connectives and other discourse markers with specific reference to Surah al-Haqq Q 20 The final section of the volume juxtaposes contrasting attitudes to the discernment of diachronic seams Devin Stewart examines surah medial oracular oaths Muhammad Abdel Haleem questions a range of instances where suggestions of disjointedness have historically been raised and Nicolai Sinai explores the presence of redactional layers within Surah al-Nisaa Q 4 and Surah al-Maidah Q 5 Bringing a combination of different approaches to Qur'an structure into a single book written by well established and emerging voices in Qur'anic studies the work will be an invaluable resource to academics researching Islam religious studies and languages and literatures in general Chapters 3 and 6 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Deleuze, The Dark Precursor Eleanor

Kaufman,2012-09-01 A thoughtful and original analysis of the writings of influential French philosopher Gilles Deleuze Gilles Deleuze is considered one of the most important French philosophers of the twentieth century Eleanor Kaufman situates Deleuze in relation to others of his generation such as Jean Paul Sartre Pierre Klossowski Maurice Blanchot and Claude L vi Strauss and she engages the provocative readings of Deleuze by Alain Badiou and Slavoj i ek Deleuze The Dark Precursor is organized around three themes that critically overlap dialectic structure and being Kaufman argues that Deleuze s work is deeply concerned with these concepts even when he advocates for the seemingly opposite notions of univocity nonsense and becoming By drawing on scholastic thought and reading somewhat against the grain Kaufman suggests that these often maligned themes allow for a nuanced even positive reflection on apparently negative states of being such as extreme inertia This attention to the negative or minor category has implications that extend beyond philosophy and into feminist theory film American studies anthropology and architecture **Structures and Architecture** Mario Rinke,Marie Frier

Hvejsel,2025-06-23 Structures and Architecture REstructure REmaterialize REthink REuse contains the contributions to the 6th International Conference on Structures and Architecture ICSA 2025 Antwerp Belgium 8 11 July 2025 As a response to the pressing global climate and energy crisis and with new settings and tools the design and construction of our built environment needs reconsideration and extension The papers call for a re imagination of current practices regarding structures and architecture The volumes of the series are published every three years in tandem with the conferences organised by the International Association of Structures and Architecture They aim to reach a global audience of researchers practitioners and students including architects structural and construction engineers builders and building consultants constructors material suppliers planners urban designers anthropologists economists sociologists artists product manufacturers and other professionals involved in the design and realisation of architectural structural and infrastructural projects **Essays on Linguistic Realism** Christina Behme,Martin Neef,2018-07-26 This book contains new articles by

leading philosophers and linguists discussing a promising philosophical framework distinct from currently dominant ones Linguistic Realism As opposed to Nominalism and Chomskyian Conceptualism this approach distinguishes between use of language knowledge of language and language as such The latter is conceived as part of the realm of abstract objects The authors show how adopting Linguistic Realism overcomes entrenched problems with other frameworks and suggest that Linguistic Realism will best serve those interested in formal linguistics the cognitive dimension of natural language and linguistic philosophy The essays offer different perspectives on Linguistic Realism either supporting this paradigm or taking it as a starting point for developing modified conceptions of linguistics and for further tying linguistics to the kind of formal theories of sensory cognition that were pioneered in visual perception by David Marr whose work is predicated on exactly the object knowledge distinction made by Linguistic Realists *What Would You Do?* Charles L. Bosk,2008-12 The emergence of professional bioethicists raises questions about how they reach their decisions whose interests they serve how bioethics has

evolved into a legitimate speciality and when it is necessary Bosk looks at these areas and at the dilemmas his ethnographic research among surgeons and genetic counselors has raised
