Schmidt, 1995-10-19 The name of Francis Poulenc 1899 1963 was first brought to prominence in the 1920s as a member of Les Six a group of young French composers encouraged by Satie and Cocteau His subsequent fame spread well beyond France and he is coming to be regarded as one of this century s most significant composers His compositions are heard constantly in concert halls the world over and numerous recordings including complete sets of songs and piano music have been released Books articles and more than a dozen doctoral dissertations have discussed his music Carl Schmidt s catalogue of Poulenc s works represents the first comprehensive attempt to list an oeuvre which numbers approximately 185 compositions written from his teenage years until his death at the age of 63 The Catalogue indentifies a number of unpublished works and adds a small group of compositions

to his musical canon for the first time Each work whether complete or unfinished published or unpublished is described fully Catalogue entries list and describe all known printed editions including reprints and manuscript copies of each work In addition they provide detailed compositional histories based on numerous letters documents and press accounts many of which have not been published previously Russian interest in Poulenc's music manifested in press runs exceeding one million copies is also revealed for the first time

The Physics of Musical Instruments Neville H. Fletcher, Thomas D. Rossing, 2013-11-09 When we wrote the first edition of this book we directed our presentation to the reader with a compelling interest in musical instruments who has a reasonable grasp of physics and who is not frightened by a little mathematics We are delighted to find how many such people there are The opportunity afforded by the preparation of this second edition has allowed us to bring our discussion up to date by including those new insights that have arisen from the work of many dedicated researchers over the past decade We have also taken the opportunity to revise our presentation of some aspects of the subject to make it more general and we hope more immediately accessible We have of course corrected any errors that have come to our attention and we express our thanks to those friends who pointed out such defects in the early printings of the first edition We hope that this book will continue to serve as a guide both to those undertaking research in the field and to those who simply have a deep interest in the subject June 1991 N H F and T D R

The Drama in the Text Enoch Brater, 1994 In this rich and perceptive study of some of the most haunting fiction written in the late twentieth century Beckett critic Enoch Brater continues his investigation of the tension between text and script silence and associational sound Brater argues with great learning that Beckett's fiction like his radio plays demands to be read aloud since much of the emotional meaning lodges in its tonality Here the rhythm of Beckett's labouring heart finds its performative voice as the reader now turned listener collaborates in the creation of a musical composition that must elucidate the stillness of the universe The Drama in the Text is a book about reciting and recounting about how we know and what we know when we read a lyrical text crafted in prose but sounding like something else instead Brater ranges across all of Beckett's work quoting from it liberally and makes connections mainly with other writers but also with details drawn from the whole Western cultural heritage The only book that deals thoroughly with Beckett's complete late fiction Brater's study opens to a wide literary audience the difficult and elliptical nature of Beckett's mature prose style For those readers who find Beckett's late fiction impossible to follow let alone describe this book will be an authoritative and persuasive guide providing recognition insight and accessibility
