 Transnational and Intersectional Perspectives on Gender Sex and Race offers critical perspectives on contemporary research
 and practice directed at young people across the global north and south Drawing upon pedagogical programmatic and
 activist work with respect to challenging inequalities and injustices for young people the authors interrogate the dominant
 discourses of sexuality gender race class age and other social categories Emerging out of a Finnish South African
 collaboration this volume does not take a comparative approach but rather a transnational one by embracing the
 intersections of local and global knowledges We draw on this transnational and transdisciplinary framework and these
 various contexts to generate a critique of mainstream theory and pedagogical practice as well as to subvert and disrupt such
 research and practice so as to speak more directly to young people's agentic and activist engagements in social justice
