Conflicts of Interest and the Future of Medicine Marc A. Rodwin, 2011-02-16 As most Americans know conflicts of interest riddle the US health care system They result from physicians practicing medicine as entrepreneurs from physicians ties to pharma and from investor owned firms and insurers influence over physicians medical choices These conflicts raise questions about physicians loyalty to their patients and their professional and economic independence The consequences of such conflicts of interest are often devastating for the patients and society stuck in the middle In *Conflicts of Interest and the Future of Medicine* Marc Rodwin examines the development of these conflicts in the US France and Japan He shows that national differences in the organization of medical practice and the interplay of organized medicine the market and the state give rise to variations in the type and prevalence of such conflicts He then analyzes the strategies that each nation employs to cope with them Unfortunately many proposals to address physicians conflicts of interest do not offer solutions that stick But drawing on the experiences of these three nations Rodwin demonstrates that we can mitigate these problems with carefully planned reform and regulation He examines a range of measures that can be taken in the private and public sector to preserve medical professionalism and concludes that there just might be more than one prescription to this seemingly incurable malady

Critical Histories of Accounting Richard K. Fleischman, Warwick Funnell, Stephen Walker, 2013-04-02 The critical tradition in accounting historiography has come to occupy a prominent place in the discipline s academic scholarship Some critical literature has confronted the responsibility of accounting and accountants in precipitating contemporary crises such as the audit failures that spawned Sarbanes Oxley and the world wide recession Certain contemporary issues have long histories such as the difficulties encountered by women to break the glass ceiling in public accounting and the suffering of indigenous peoples under the imperialistic yoke Other episodes in accounting s long history are seemingly more divorced from the present but in reality

they all have contemporary significance Slavery in the New World for example although abolished more than a century ago is still rampant in parts of the world albeit less formally Critical accounting historians feel it a duty to harken to the suppressed voices of the past those groups of people who had no access to an accounting record women persons of color indigenous populations alienated proletarians victims of governmental incompetence and graft and many voiceless others Critical Histories of Accounting Sinister Inscriptions in the Modern Era draws on the foremost work in this developing literature both that authored by the co editors of this volume and that written by others Editors Richard K Fleischman Warwick N Funnell and Steve Walker have written extensively about the dark side of accounting gauging the complicity of those performing accounting functions in episodes in human history that are at worst evil and at best reprehensible The editors have also hand selected a series of historical and contemporary episodes that have been critically investigated by the wider accounting history community preceded by a thorough introduction

Accounting for Profit for Breach of Contract Katy Barnett, 2012-05-31 This book defends the view that an award of an account of profits or disgorgement damages for breach of contract will sometimes be justifiable and fits within the orthodox principles and cases in contract law However there is some confusion as to when such an award should be made The moral bases for disgorgement damages are deterrence and punishment which shape the remedy in important ways Courts are also concerned with vindication of the claimant's performance interest and it is pivotal in these cases that the claimant cannot procure a substitute performance via an award of damages or specific relief The book argues that disgorgement damages should be available in two categories of case second sale cases where the defendant breaches his contract with the claimant to make a more profitable contract with a third party and agency problem cases where the defendant promises the claimant he will not do a certain thing and the claimant finds it difficult to supervise the performance Moreover disgorgement may be full or partial and reasonable fee damages for breach of contract are best understood as partial disgorgement rather than restitutionary damages Equitable bars to relief should also be adopted in relation to disgorgement damages as should allowances for skill and effort This book will be of interest to contract and commercial lawyers and will be especially valuable to anyone with an interest in contract remedies and restitution It draws on case law in a number of common law jurisdictions primarily England and Wales and Australia
