Tradition in the Twenty-First Century Trevor J. Blank, Robert Glenn Howard, 2013-05-15 In Tradition in the Twenty First Century eight diverse contributors explore the role of tradition in contemporary folkloristics For more than a century folklorists have been interested in locating sources of tradition and accounting for the conceptual boundaries of tradition but in the modern era expanded means of communication research and travel along with globalized cultural and economic interdependence have complicated these pursuits Tradition is thoroughly embedded in both modern life and at the center of folklore studies and a modern understanding of tradition cannot be fully realized without a thoughtful consideration of the past s role in shaping the present Emphasizing how tradition adapts survives thrives and either mutates or remains stable in today s modern world the contributors pay specific attention to how traditions now resist or expedite dissemination and adoption by individuals and communities This complex and intimate portrayal of tradition in the twenty first century offers a comprehensive overview of the folkloristic and popular conceptualizations of tradition from the past to present and presents a thoughtful assessment and projection of how tradition will fare in years to come The book will be useful to advanced undergraduate or graduate courses in folklore and will contribute significantly to the scholarly literature on tradition within the folklore discipline Additional Contributors Simon Bronner Stephen Olbrys Gencarella Merrill Kaplan Lynne S McNeill Elliott Oring Casey R Schmitt and Tok Thompson

Tunisian Women's Writing in French Sonia Alba, 2018-11-21 Tunisian women s literary production in French published or set between the years 1987 and 2011 from

Tunisia's second president Zine El Abidine Ben Ali's rise to power to the eve of the Tunisian Revolution reveals the role of women, their political engagement and their resistance to patriarchal oppression. A great deal of media and scholarly attention has focused on the role of women during the Tunisian Revolution itself, yet few studies have considered women's literary and active engagement prior to the uprising. By contrast, this book focuses specifically on the time period leading to the Revolution. The book is structured around three chapters, each focusing on a different form of writing and on a number of contemporary Tunisian writers who have chosen to express themselves in French. Sonia Alba explores the complex ways in which the authors have attempted to deal with those issues cultural, social and political most relevant to them. This is the first study of Tunisian women's writing in French to compare and contrast key themes in three different genres within a single study and within the conceptual framework of subaltern counterpublics. The work is enhanced by the inclusion of extracts from previously unpublished authors' interviews. **Tunisian Women's Writing in French** is essential reading for all Francophone and Postcolonial scholars and for scholars and students working in Contemporary Women's Writing. **Collective**

Despite divergences and conflicts, its organization is based on certain shared principles and its culture characterized by distinctive discursive practices. This book examines how the Internet Polity developed until 2010 in terms of the technological and cultural features that have supported it. Accordingly, the Internet Polity's emerging prospects are considered. **Topics and features if supportLists** Gives an original framework for understanding the global collective grounded on the internet as a social space if supportLists Presents a history of the technological basis and communication features of this collective from the beginnings to 2010 if supportLists Offers an interdisciplinary perspective that cuts across most disciplines of the humanities and social sciences if supportLists Describes the histories of and debates surrounding popular terms like cyberspace, information superhighway, Internet of Things, hacker, etc. This wide-ranging and original book is for researchers, graduate students, professionals and informed readers who are interested in information technology and political culture, digital humanities, sociolinguistics and communication studies, history of the internet, contemporary social organization and political philosophy. **Dictionaries**, 2006 *Annual Bibliography of English Language and Literature* Modern Humanities Research Association, 2007 Includes both books and articles *Linguistics and Language Behavior Abstracts*, 2007
