suburb William Finnegan spent years embedded with families in four communities across the country to become an intimate observer of the lives he reveals in *Cold New World*. What emerges from these beautifully rendered portraits is a prescient and compassionate book that never loses sight of its subjects' humanity. A NEW YORK TIMES NOTABLE BOOK. A LOS ANGELES TIMES BEST NONFICTION SELECTION. Praise for *Cold New World*: Unlike most journalists who drop in for a quick interview and fly back out again, Finnegan spent many weeks with families in each community over a period of several years, enough time to distinguish between the kind of short-term problems that can beset anyone and the longer-term systemic poverty and social disintegration that can pound an entire generation into a groove of despair. Los Angeles Times Book Review. The most remarkable of William Finnegan's many literary gifts is his compassion. Not the fact of it, which we have a right to expect from any personal reporting about the oppressed, but its coolness, its clarity, its ductile strength. Finnegan writes like a dream. His prose is unfailingly lucid, graceful, and specific; his characterization effortless; and the pull of his narrative, pure seduction. The Village Voice. Four astonishingly intimate and evocative portraits. All of these stories are vividly, honestly, and compassionately told. While *Cold New World* may make us look in new ways at our young people, perhaps its real goal is to make us look at ourselves. The Philadelphia Inquirer. **The Fires of Spring** Shelly Culbertson, 2016-04-19. Turkey, Iraq, Qatar, Jordan, Egypt, and Tunisia. The Arab Spring all started when a young Tunisian fruit seller set himself on fire in protest of a government official confiscating his apples and slapping his face. The aftermath of that one personal protest grew to become the Middle East movement known as the Arab Spring, a wave of disparate events that included protests, revolutions, hopeful reform movements, and bloody civil wars. *The Fires of Spring* is the first book to bring the post-Arab Spring world to light in a holistic context. A narrative of author Shelly Culbertson's journey through six countries of the Middle East, *The Fires of Spring* tells the story by weaving together a sense of place, insight about issues of our time, interviews with leaders, history, and personal stories. Culbertson navigates the nuances of street life and peers into ministries, mosques, and women's worlds. She delves into what Arab Spring optimism was about and at the same time sheds light on the pain and dysfunction that continues to plague parts of the region. *The Fires of Spring* blends reportage, travel memoir, and analysis in this complex and multifaceted portrait.

Presidential Lightning Rods Richard J. Ellis, 1994. Choice Outstanding Title. H. R. Haldeman, President Nixon's former chief of staff, is said to have boasted, "Every president needs a son of a bitch, and I'm Nixon's I'm his buffer and I'm his bastard. I get done what he wants done and I take the heat instead of him." Richard Ellis explores the widely discussed but poorly understood phenomenon of presidential lightning rods: cabinet officials who take the heat instead of their bosses. Whether by

intent or circumstance these officials divert criticism and blame away from their presidents The phenomenon is so common that it is assumed to be an essential item in every president's managerial toolbox But Ellis argues such assumptions can oversimplify our understanding of this tool Ellis advises against indiscriminate use of the lightning rod metaphor Such labeling can hide as much as it reveals about presidential administration and policymaking at the cabinet level The metaphor often misleads by suggesting strategic intent on the president's part while obscuring the calculations and objectives of presidential adversaries and the lightning rods themselves Ellis also illuminates the opportunities and difficulties that various presidential posts especially secretaries of state chiefs of staff and vice presidents have offered for deflecting blame from our presidents His study offers numerous detailed and instructive examples from the administrations of Truman Dean Acheson Eisenhower Richard Nixon John Foster Dulles Herbert Brownell and Ezra Taft Benson LBJ Hubert Humphrey Ford Henry Kissinger and Reagan James Watt These examples Ellis suggests should guide our understanding of the relationship between lightning rods and presidential leadership policymaking and ratings Blame avoidance he warns does have its limitations and may even backfire at times Nevertheless President Clinton and his successors may need to rely on such tools The presidency Ellis points out finds itself the object of increasingly intense partisan debate and microscopic scrutiny by a wary press Lightning rods can deflect such heat and help the president test policies gauge public opinion and protect his political power and public image Ellis's book is an essential primer for helping us understand this process
