Using iPhones, iPads, and iPods Matthew Connolly, Tony Cosgrave, 2014-10-28 Apple Inc has sold more than 500 million iPhones iPads and iPod Touches Library patrons are increasingly coming to libraries with the expectation that their Apple devices will work flawlessly with library services or that they can find an iPad to use at the library if they don't have one of their own Libraries and librarians today are expected to be adept with the latest technology and to be able to apply it to popular use as well as scholarly research Using iPhones and iPads A Practical Guide for Librarians offers library professionals a clear path to Apple readiness The authors a librarian and a software developer at a prominent research library combine their experience in library public services and mobile technology to provide easy to follow step by step instructions to help you get up to speed on Ensuring that your library website and online resources are iDevice friendly Creating a custom app for your library and making it available in iTunes Starting an iPad lending program Using iDevices for librarianship and library work Assessing and advertising iDevice programs Acquiring configuring and deploying iDevices to users Recommended apps that can help you and your users Whether you work at a large academic institution or a small public library this book will show you how to become iDevice literate quickly and easily

Mastering Apple TV 4K Adidas Wilson , When you hear Apple TV you immediately think it is an actual TV that you are purchasing But this is not the case The Apple TV is actually a device that you will use to stream something a little similar to Amazon's Fire or Roku It is a little black box that is about an inch and a half tall just a little bit less than four inches and it runs on a very similar platform to the iPad and the popular iPhones You can download a list of apps and also games beyond the standard streaming video that you could get from Hulu Netflix Amazon just to name a few The Apple TV has been centered on various apps and it is still able to stream multiple TV shows movies straight to your HDTV but this is just the tip of the iceberg on the features this box has been packed with The box allows you to watch and

stream podcasts play your favorite game stream your workout playlist and much more But what is important to note to enjoy all these benefits this box is ready to provide it will all depend on the apps that you have installed Some of the apps you will use are free and some will cost Think of it this way the Apple TV is able to turn your TV into a Smart TV You can either rent your favorite movies or merely stream your collection from your iTunes account You could also stream movie shows from apps like Hulu Plus or Netflix stream your music from the Pandora or Apple Music apps I mean the list is endless on what the Apple TV can actually do for you The Apple TV 4K has been designed with some of the fastest processors you could find the same that powers the iPad Pro The Apple TV box has been made to be as powerful as most laptops we use It also has a fast graphics processor that has been designed with enough power that could turn the black box into a game console Nothing sounds better than this Apple has genuinely revamped the new generation but this does not mean you have to throw away your older model just the same thing they have been doing with iPhone The third generation is still available in the market for you to purchase
