Spanish Central America Murdo J. relative prosperity depression and then recovery citing comparative sources on Europe to describe Central America's great economic demographic and social cycles With an updated historiographical and bibliographical introduction this fascinating study should appeal to historians anthropologists and all who are interested in the colonial experience of Latin America

Randall, 2018-03-14 This book examines part of the development of the Bruderhof community which emerged in Germany in 1920 Community members sought to model their life on the New Testament This included sharing goods The community became part of the Hutterite movement with its origins in sixteenth century Anabaptism After the rise to power of the Nazi regime the Bruderhof became a target and the community was forcibly dissolved Members who escaped from Germany and travelled to England were welcomed as refugees from persecution and a community was established in the Cotswolds In the period 1933 to 1942 when the Bruderhof's witness was advancing in Britain its members were in touch with many individuals and movements This book covers the Bruderhof's connections with among others the Fellowship of Reconciliation Dietrich Bonhoeffer the Peace Pledge Union the social work of Muriel and Doris Lester in East London Jewish refugee groups and artistic pioneers like Eric Gill As significant numbers of British people joined the Bruderhof its farming publishing and arts and crafts activities extended considerably But with the outbreak of the Second World War German members came to be regarded with suspicion and British members became unpopular locally because they were pacifists Although the Bruderhof
