Pedagogies of the Imagination Timothy Leonard, Peter Willis, 2008-06-11 I have long admired the mythopoetic tradition in curriculum studies That admiration followed from my experience as a high school teacher of English in a wealthy suburb of New York City at the end of the 1960s A dream job I taught four classes of 15-20 students during a nine period day in a dream suburb where I could afford to reside only by taking a room in a retired teacher's house many of these often Ivy League bound students had everything but meaningful lives This middle class Midwestern young teacher was flabbergasted In one sense my academic life has been devoted to understanding that searing experience Matters of meaning seemed paramount in the curriculum field to which Paul Klohr introduced me at Ohio State Klohr assigned me the work of curriculum theorists such as James B Macdonald Like Timothy Leonard who also studied with Klohr at Ohio State and Peter Willis Macdonald 1995 understood that school reform was part of a broader cultural and political crisis in which meaning is but one casualty In the mythopoetic tradition in curriculum studies scholars labor to understand this crisis and the conditions for the reconstruction of meaning in our time in our schools *Understanding the Steiner Waldorf Approach* Janni Nicol, Jill Taplin, 2012 This is a much needed source of information for those wishing to extend and consolidate their understanding of the Steiner Waldorf high scope approach It will enable the reader to analyse its essential elements to early childhood and its relationship to quality early years practice *Astrology as Path to Higher Consciousness*

Kurt Abraham, 2009-08 **The Spirit of the Waldorf School** Rudolf Steiner, 1995-09 9 lectures September 15-22 1920 and October 15-16 1923 CW 302a Speaking to the teachers at the first Waldorf school in Stuttgart Steiner asserts that the unfortunate presence of dishonesty and alienation in society today cannot be addressed without a completely renewed and holistic education He states fact that successful teaching requires a living synthesis of the spiritual gymnast the ensouled rhetorician and the intellectual professor Of these the formative effect of the rhetorician's cultivation of artistic speech is the most important It's impossible for true teaching to be boring declares Steiner and he offers several examples of how teachers can observe a natural phenomenon so intimately that its creative life can flow into the children through a teacher's own words in the classroom He also describes in spiritual scientific depth how the actions of teachers directly affect the physiological chemistry of their students From this perspective education is really therapy transformed to a higher level and should be seen as closely related to the healing arts Steiner also shows how the perception of hidden relationships between education and the processes of human development can kindle a heartfelt enthusiasm and a sense of responsibility in teachers for the far reaching health effects that educational activities can produce German source Erziehung und Unterricht

Aspects of Human Evolution Rudolf Steiner, J. Leonard Benson, 1987-02-01 How to Keep Your Soul Alive after Twenty Seven This could have been the title of this book The author shows that the natural development of the soul stops at around the age of twenty seven

After that nothing happens for our inner being unless we learn to make it happen Part of the tragic nature of our time is that more and more people allow their soul life to die at twenty seven so that the remainder of their life becomes a kind of mummification Rudolf Steiner explains how by exerting our thinking and feeling we can keep our soul alive and growing This is ultimately the only way we can make this incarnation a satisfactory one Through such effort we can continue to develop inwardly until a very advanced age each year becoming richer and more interesting than the one before Here is a book that gives real meaning to the idea that we live in a state of becoming **Human Values in Education** Rudolf Steiner,2004 These lectures on education were given well after the founding of several Waldorf schools in Europe and thus Steiner was able to draw on the practical experience of this form of education in action **Waldorf Education and Anthroposophy 2** Rudolf Steiner,1996 12 lectures various cities November 19 1922 August 30 1924 CW 218 By the time of this second collection of Steiner s public lectures on Waldorf education the Waldorf school movement was gaining increasing recognition In this collection as in the previous volume Steiner is outspoken about the spiritual nature of human beings and the world including the spiritual nature of Waldorf education Topics include Education and Teaching The Art of Teaching from an Understanding of the Human Being Education and Art Education and the Moral Life Introduction to a Eurythmy Performance Why Base Education on Anthroposophy Waldorf Pedagogy Anthroposophy and Education Moral and Physical Education Educational Issues Original book Geistige Zusammenh nge in der Gestaltung des Menschlichen Organismus vol 218 of the Complete Works of Rudolf Steiner **Rhythms of Learning** Rudolf Steiner,1998 Key lectures on children and education have been thoughtfully chosen from the vast amount of material by Steiner and presented in a context that makes them approachable and accessible In his many discussions and lectures Steiner shared his vision of an education that considers the spirit soul and physiology in children as they grow
