Materials L.L. Katan, 2012-12-06 The advent of sophisticated packaging materials and methods had stimulated the development of complex delivery systems from producer to consumer resulting in the availability of a wide range of products at an affordable price Contemporary distribution methods are not without problems however and specifically related to packaging is the possibility of migration the contamination of food by components of the materials in contact with it In this area both technology and regulations are well developed but basic science for a variety of reasons has tended to advance less quickly This book addresses the basic science of migration The editor has brought together a range of authors all of whom are acknowledged experts in their fields to provide a timely and concise overview of this important topic Covering basic science common materials and the major regulations in North America Europe and Japan this book will become a key information source in every library concerned with food technology Food technologists manufacturers of packaging and other food contact materials and regulatory professionals will all find this book an indispensable reference source *Food Taints and Off-Flavours* M.J. Saxby, 2012-12-06 Contamination of food with extremely low levels of certain compounds can cause an unpleasant taste This can result in the destruction of vast stocks of product and very substantial financial losses to food companies The concentration of the alien compound in the food can be so low that very sophisticated equipment is needed to identify the components and to determine its source It is vital that every company involved in the production distribution and sale of foodstuffs are fully aware of the ways in which contamination can accrue how it can be avoided and what steps need to be taken in the event that a problem does arise This book provides the background information needed to recognize how food can become tainted to draw up guidelines to prevent this contamination and to plan the steps that should be taken in the event of an outbreak The new edition has been extensively revised and updated and includes substantial new material on the

formation of off flavors due to microbiological and enzymic action and on sensory evaluation of taints and off flavors A new chapter on off flavors in alcoholic beverages has been added Written primarily for industrial food technologists this volume is also an essential reference source for workers in research and government institutions Cross-Fluence Stephen
