Anticipation and Decision Making in Sport A. Mark Williams, Robin Jackson, 2019-02-12 The ability to anticipate and make accurate decisions in a timely manner is fundamental to high level performance in sport. This is the first book to identify the underlying science behind anticipation and decision making in sport, enhancing our scientific understanding of these phenomena and helping practitioners to develop interventions to facilitate the more rapid acquisition of the perceptual cognitive skills that underpin these judgements. Adopting a multidisciplinary approach encompassing research from psychology, biomechanics, neuroscience, physiology, computing science and performance analysis, the book is divided into three sections. The first section provides a comprehensive analysis of the processes and mechanisms underpinning anticipation and skilled perception in sport. In the second section, the focus shifts towards exploring the science of decision making in sport. The final section is more applied, outlining how the key skills that impact on anticipation and decision making may be facilitated through various training interventions. With chapters written by leading experts from a vast range of countries and continents, no other book offers such a synthesis of the historical development of the field, contemporary research and future areas for investigation in anticipation and decision making in sport. This is a fascinating and important text for students and researchers in sport psychology, skill acquisition, expert performance, motor learning, motor behaviour and coaching science, as well as practicing coaches from any sport.

Routledge Handbook of Sport Communication Paul M. Pedersen, 2024-10-24 The Routledge Handbook of Sport Communication offers a comprehensive and in depth survey of the contemporary discipline of sport communication. Now in a fully revised and updated second edition, it explores communication within and for sport in various theoretical, conceptual, cultural, behavioral, practical and managerial aspects. Including contributions from leading sport communication scholars and professionals from around the world, the book is structured around four key themes: theoretical and conceptual foundations, mediated aspects of sport communication, sociological aspects and organizational, technological and managerial aspects. This new edition includes expanded coverage of important and emerging topics within sport communication, including cross cultural communication, rhetoric in sport, storytelling, the business of sports, broadcasting, athlete activism and communication within sports teams. Taking stock of current research, new ideas and key issues, this book is an essential reference for any advanced student, researcher or practitioner with an interest in sport communication, sport business, sport management, sport marketing, communication theory, journalism or media studies.
