Spring Break For Michigan Schools 2014:

RIP GOP Stanley B. Greenberg, 2019-09-10 A leading pollster and adviser to America's most important political figures explains why the Republicans will crash in 2020. For decades the GOP has seen itself in an uncompromising struggle against a New America that is increasingly secular, racially diverse, and fueled by immigration. It has fought non-traditional family structures, ripped huge holes in the social safety net, tried to stop women from being independent, and pitted aging rural Evangelicals against the younger, more dynamic cities. Since the 2010 election put the Tea Party in control of the GOP, the party has condemned America to years of fury, polarization, and broken government. The election of Donald Trump enabled the Republicans to make things even worse. All seemed lost. But the Republicans have set themselves up for a shattering defeat. In RIP GOP, Stanley Greenberg argues that the 2016 election hurried the party's imminent demise. Using amazing insights from his focus groups with real people and surprising revelations from his own polls, Greenberg shows why the GOP is losing its defining battle. He explores why the 2018 election, when the New America fought back, was no fluke. And he predicts that in 2020, the party of Lincoln will be left to the survivors, opening America up to a new era of renewal and progress. **The**

Insider's Guide to the Colleges, 2014 Yale Daily News Staff, 2013-07-09 Students on campus tell you what you really want to know. Cover *The Landscape of Rural Service Learning, and What It Teaches Us All* Randy Stoecker, Nicholas

Holton, Charles Ganzert, 2016-11-01 Up until now, the majority of literature about service learning has focused on urban areas, while comparatively little attention has been paid to activities in rural communities. *The Landscape of Rural Service Learning and What It Teaches Us All* is designed to provide a comprehensive look at rural service learning. The practices that have developed in rural areas, partly because of the lack of nonprofits and other services found in urban settings, produce lessons and models that can help us all rethink the dominant forms of service learning defined by urban contexts. Where there are few formal organizations, people end up working more directly with one another where there is a need for services. In locations where they are unavailable, service learning becomes more than just an academic exercise or assignment. This volume includes theoretical frameworks that are informed by the rural concrete stories that show how rural service learning has developed and is now practiced, practical strategies that apply across service learning contexts, and points to ponder as we all consider our next steps along the path of meaningful service learning.
