SPRINKLES

A large, glowing lightbulb is the central focus, filled with a variety of colorful sprinkles. Surrounding the lightbulb are several white line-art icons: a dollar sign inside a circle, a line graph, a bar chart, a lightbulb with rays, a flowchart, and a building. The background is a solid dark blue.

Sprinkles Creating Awesome Experiences Through Innovative Service:

Sprinkles Chip R. Bell, 2015 The Internet has commoditized products and made excellent service the norm Consumers now routinely expect perks such as next day delivery around the clock access and free returns Differentiating your company just by offering exceptional service is difficult and slices into already thin profit margins Leadership consultant Chip R Bell says you can differentiate yourself a different way without a lot of expense by offering value unique service that surprises and delights your customers Just as colorful sprinkles make ordinary cupcakes special innovative heartfelt service tells customers you value them Bell s abundant use of nostalgic examples drawn from neighborhood businesses makes the text seem quaint and cozy or maybe provincial depending on your perspective Therefore getAbstract suggests his warm advice particularly to small business owners and self employed service providers Bell s tenets of special service might be slightly more applicable in a small shop than a large company though any business could benefit by sprinkling on a little extra sugar for its customers

Professionals Association CXPA **Employee Ambassadorship** Michael W. Lowenstein, 2017-04-04 There have been a number of professional and academic studies in multiple industries linking employee attitudes and behaviors with the value customers perceive in their experiences Through targeted research and resultant training communication process and reward and recognition programs what we define as ambassadorship formalizes the direction in which employee engagement has been trending toward for years Simply the trend is optimizing employee commitment to the organization and its goals to

the company's unique value proposition and to the customer. This is employee ambassadorship, a state beyond satisfaction and engagement where all employees are focused on and tasked with delivering customer value as part of their job description irrespective of location, function or level. There is growing general agreement that both developing employee ambassadors and customer advocates should receive high priority and emphasis if an enterprise is going to be successful. What building ambassadorship does mandate, however, is that having employees focus on the customer will definitely drive more positive experiences and stronger loyalty behavior for both stakeholder groups. Because antecedent approaches to employee engagement through research and application are principally about productivity and alignment and offer an organization only modest insight about level or degree of customer centricity, more connection between employee behavior and customer behavior builds focus, effectiveness and profitability. That is what the content scope of Employee Ambassadorship will help provide.

This wonderful book offers powerful practical advice along with engaging stories of ways a novel service experience can also be one that is profound.
