

SQF Levels

Level 1

"**Fundamentals**" is designed for low-risk food products that are rarely recalled and is based on Good Agricultural Practices (GAP) for growers, Good Manufacturing Practices (GMP) for food manufacturing/processing, and Good Distribution Practices (GDP) for food distributors.

Level 2

"**Food Safety**" introduces intermediate standards for various food types, builds on Level 1 requirements, and is based on Hazard Analysis and Critical Control Points (HACCP) regulations.

Level 3

"**Food Safety and Quality**" is the gold standard of SQF certification, building on Levels 1 and 2, with corrective actions addressing identified risks and demonstrating a strong emphasis on both quality and safety.

Private food law Bernd van der Meulen, 2023-09-04 Since the turn of the Millennium world wide initiatives from the private sector have turned the regulatory environment for food businesses upside down For the first time in legal literature this book analyses private law initiatives relating to the food chain often referred to as private voluntary standards or schemes Private standards are used to remedy flaws in legislation in order to reach higher levels of consumer protection than the ones chosen by the EU legislature and to manage risks and liability beyond the traditional limits of food businesses We see that litigation is no longer solely framed by legislative requirements but ever more by private standards such as GlobalGAP BRC IFS SQF and ISO These private standards incorporate public law requirements thus embedding them in contractual relations and exporting them beyond the jurisdiction of public legislators Other standards focus on corporate social responsibility or sustainability This book also addresses how private religious standards such as Kosher and Halal play a role in defining specific markets of growing importance It is noted that organic standards have found an interesting symbioses with public law Another development on this topic is that food businesses are inspected more often by private auditors than by public inspectors Effects in terms of receiving or being denied certification far outweigh public law sanctions In short private law has changed an entire legal infrastructure for the food sector It emerges as competing with the public law regulatory infrastructure This book is of interest to all who concern themselves with food law legislation and litigation and the evolving role of private standards on changing the landscape of food chains and innovation Popular
