## **Sri Lankan Supra Past Papers:**

Sri Lanka, Human Rights and the United Nations Thamil Venthana Ananthavinayagan, 2019-04-30 This book examines the engagement between the United Nations human rights machinery and the respective governments since Sri Lanka then Ceylon joined the United Nations Sri Lanka has a long and rich history of engagement with international human rights instruments However despite its active membership in the UN the country's post colonial trials and tribulations are emblematic of the limited influence the international organisation has exerted on this country in the Global South Assessing the impact of this international engagement on the country's human rights infrastructure and situation the book outlines Sri Lanka's colonial and post colonial development It then considers the development of a domestic human rights infrastructure in the country It also examines and analyzes Sri Lanka's engagement with the UN's treaty based and charter based human rights bodies before offering conclusions concerning the impact of said engagement The book offers an innovative approach to gauging the impact of international human rights engagement while also taking into account the colonial and post colonial imperatives that have partly dictated governmental behaviour By doing so the book seeks to combine and analyse international human rights law post colonial critique studies on biopower and critical approaches to international law It will be a useful resource not only for scholars of international law but also for practitioners and activists working in this area

Professional Paper, 1975      **Writing Sri Lanka** Minoli Salgado, 2007-01-24 Focusing on ways in which cultural nationalism has influenced both the production and critical reception of texts Salgado presents a detailed analysis of eight leading Sri Lankan writers Michael Ondaatje Romesh Gunasekera Shyam Selvadurai A Sivanandan Jean Arasanayagam Carl Muller James Goonewardene and Punyakante Wijenaike to rigorously challenge the theoretical cultural and political assumptions that pit insider against outsider resident against migrant and the authentic against the alien By interrogating the discourses of territoriality and boundary marking that have come into prominence since the start of the civil war Salgado works to define a more nuanced and sensitive critical framework that actively reclaims marginalized voices and draws upon recent studies in migration and the diaspora to reconfigure the Sri Lankan critical terrain      *Public Administration in Sri Lanka*, 1989      Women of the World, 2005      **Globalisation, Employment and Education in Sri Lanka** Angela W. Little, Siri T. Hettige, 2014-05-23 Since the late 1970s Sri Lanka has undergone a socio economic transformation from protectionism towards economic liberalisation and increasing integration into the world economy Through a systematic

comparison of these periods of economic change 1956 1977 and 1977 to the present Angela W Little and Siri T Hettige examine the impact of this transformation on education youth employment and equality of opportunity in Sri Lanka The book charts Sri Lanka's shift from a predominantly agricultural economy to one dominated by services and manufacturing a reduction in unemployment rising educational and occupational levels expectations and achievements and a reduction in poverty In turn it reveals a growing role for the private sector and foreign interests in post secondary education and a modest growth in private education at the primary and secondary levels as well as widening social disparities in access to qualifications training and skills The Sri Lankan experience of and engagement with globalisation has been tempered by a long running ethnic conflict that hindered economic and social development and diverted considerable public funds into defence and war Now that the war is won the challenge is how to invest in human resource development and the fulfilment of the expectations of youth from all ethnic and social groups This challenge requires serious policy analysis the generation of more state revenues the reallocation of existing public resources and a political commitment to the winning of a sustainable peace and stability This book makes an important contribution to the broader international literature on the implications of globalisation for education policy and practice and to the interaction of exogenous and endogenous forces for educational change It deals with the tension between the high social demand for education and the growing demand for specialised skills in a changing economy As such it has a wide interdisciplinary appeal across education policy and politics Asian education South Asian society youth policy sociology of education political economy of social change and globalisation

amnesties of the broadest scope are sometimes defensible when adopted as a last recourse in contexts of mass violence Drawing on an extensive amnesty database the book offers detailed guidance on how to ensure that amnesties extend the minimum leniency possible while imposing the maximum accountability on the beneficiaries

### **Responding to**

**International Crime** Geoff Gilbert, 2006-09-30 Following the wars in the former Yugoslavia and Rwanda and the events of 11 September 2001 awareness of international crimes has come to the forefront of public consciousness The very public responses seen in the establishment by the Security Council of the ad hoc tribunals and the international community coming together to create the International Criminal Court have done much to promote the idea that there should be no impunity for international criminals Nevertheless while those are incredibly significant steps in the attempt to combat international crime there is no way due to their jurisdictional competence that such bodies could ever hope to address all the various crimes that are committed that are not confined to a single domestic jurisdiction either by reason of their nature or transborder factors As such the response of the international community to international crime depends as much on extraterritorial criminal jurisdiction mutual legal assistance agreements extradition and other means of lawful rendition Furthermore given the fundamental rule that a person is innocent until proven guilty and that everyone within the jurisdiction of a State is owed certain basic minimum human rights guarantees responses to international crime cannot be without limitation Respect for the alleged transnational fugitive offender is as important a factor in responding to international crime as preventing impunity for genocide crimes against humanity war crimes and gross human rights violations
