Education and Disability in the Global South Nidhi Singal, Paul Lynch, Shruti Taneja Johansson, 2018-12-13 Education and Disability in the Global South brings together new and established researchers from a variety of disciplines to explore the complexities and dilemmas encountered in providing education to children and young people with disabilities in countries in South Asia and Africa. Applying a range of methodological, theoretical and conceptual frameworks across different levels of education systems from pre school to higher education, the contributors examine not just the barriers but also the opportunities within the educational systems in order to make strong policy recommendations. Together the chapters offer a comprehensive overview of a range of issues including a nuanced appreciation of the tensions between the local and global in relation to key developments in the field, critiquing a globalized notion of inclusive education as well as proposing new methodological advancements in taking the research agenda forward. Empirical insights are captured not just from the perspectives of educators but also through engaging with children and young people with disabilities who are uniquely powerful in providing insights for future developments.
