IMuslims Gary R. Bunt, 2009

Margaret Oliphant's Curative Gothic Literature Katerina García-Walsh, 2025-11-06 Prolific Scottish novelist Margaret Oliphant 1828 1897 remembered chiefly for her realist fiction and biting literary criticism of contemporary authors also wrote nineteen supernatural tales This monograph offers a comprehensive exploration of Oliphant s Gothic literature in the light of her religious beliefs cultural context and experiences of death and mourning as she survived her husband and all six of her children Oliphant s stories set in the afterlife depict the dead as inhabiting a new existence characterised by spiritual growth while her tales set on earth attempt contact between the mortal and immortal planes Garc a Walsh illustrates Oliphant s unique theological conception of afterliving which ultimately seeks to eradicate the divide between the living and their deceased loved ones reimagining death as a liminal passage towards God and divine self development This book thus

suggests a new direction for Gothic studies by showing how Oliphant's supernatural fiction provided a means of curative writing transforming the traumatic reality of death into a source of hope. The volume is suited for students, researchers, and academics in the disciplines of literature and history, particularly the fields of nineteenth-century studies, Victorian studies, and Gothic studies, with an interest in women's writing, theology, and mental health/trauma studies.

Making Pagans John Kuhn, 2024-12-10

How early modern theatrical practice helped construct the category of pagan as a tool of European self-definition and colonial ambition. In *Making Pagans*, John Kuhn argues that drama played a powerful role in the articulation of religious difference in the seventeenth century. Tracing connections between the history of stagecraft and ethnological disciplines such as ethnography, antiquarianism, and early comparative religious writing, Kuhn shows how early modern repertory systems that leaned heavily on thrift and reuse produced an enduring theatrical vocabulary for understanding religious difference through the representation of paganism, a key term in the new taxonomy of world religions emerging at this time and a frequent subject and motif in English drama of the era. Combining properties such as triumphal chariots, trick altars, and moving statues with music, special effects, and other elements, the spectacular set pieces that were mostly developed for plays set in antiquity depicting England's pre-Christian past were frequently repurposed in new plays in representations of Native Americans and Africans in colonial contact zones. Kuhn argues that the recycling of these set pieces encouraged audiences to process new cultural sites through the lens of old performance tropes and helped produce fictitious, quasi-ethnographic knowledge for spectators, generating the idea of a homogeneous trans-historical, trans-geographical paganism. Examining the common scenes of pagan ritual that filled England's seventeenth-century stages—magical conjurations, oracular prophecies, barbaric triumphal parades, and group suicides—Kuhn traces these tropes across dozens of plays from a range of authors, including Ben Jonson, Christopher Marlowe, John Dryden, and Philip Massinger. Drawing together theater history, Atlantic studies, and the history of comparative religion, *Making Pagans* reconceptualizes the material and iterative practices of the theater as central to the construction of radical religious difference in early modernity and of the category of paganism as a tool of European self-definition and colonial ambition.

Victorian Sappho Yopie Prins, 2020-12-08

What is Sappho except a name? Although the Greek archaic lyrics attributed to Sappho of Lesbos survive only in fragments, she has been invoked for many centuries as the original woman poet singing at the origins of a Western lyric tradition. *Victorian Sappho* traces the emergence of this idealized feminine figure through reconstructions of the Sapphic fragments in late nineteenth-century England. Yopie Prins argues that the Victorian period is a critical turning point in the history of Sappho's reception: what we now call Sappho is in many ways an artifact of Victorian poetics. Prins reads the Sapphic fragments in Greek alongside various English translations and imitations, considering a wide range of Victorian poets, male and female, famous and forgotten, who signed their poetry in the name of Sappho. By declining the name in each chapter, the book presents a theoretical argument about the Sapphic signature as well as a historical account of its implications in

Victorian England Prins explores the relations between classical philology and Victorian poetics the tropes of lesbian writing the aesthetics of meter and nineteenth century personifications of the Poetess as current scholarship on Sappho and her afterlife Offering a history and theory of lyric as a gendered literary form the book is an exciting and original contribution to Victorian studies classical studies comparative literature and women s studies
